His CV is short and does not give a good impression of Olufemi. His CV gives a much better impression of his background and experience.

## OUR FEEDBACK

Olufemi wants to be an efficient and reliable virtual assistant. He knows the marketing field well and has for the last 3 years worked mainly on social media marketing.

He works well from home, but he has limited experience working directly as a VA.

Olufemi would be a good fit for a company that are looking for an intern as a VA, or that is training VA's for other tasks.
