The Union transport ministry has aimed to complete tunnel projects totalling 331 km in the next five years. The ministry wants to reduce the distance between Pathankot and Mandi from 219 km to 171 km. Towns like Nurpur, Mattor, Nagrota Bagwan, Palampur, Maranda, Baijnath, Paprola and Joginder will be connected. The Eastern Himalayan State Highway Project has been approved up to Gangtok-Disang. It is estimated to cost ₹8,000 crore, and the NHAI has given clearance to the ₹8,000 crore Pathankot-Mandi, four-lane highway project. It has also restarted the ₹1,147 crore contract from the Chennai Metro Rail Limited for constructing the 8,390-cr Aerocity-Tughlaqabad corridor under Phase-IV of its upcoming Silver Line— the Aerocity-Tughlaqabad corridor for Delhi Metro Rail Corporation. The DMRC is all set to start construction work on the underground 506 sq meter of commercial space adjacent to the booking office. The successful bidder can use this zone and even a recreation room as its commercial department will offer an area of 19,000 sq meter. Western Railway (WR) had planned to build a shopping mall that will have retail, game zones, food courts, etc.

DMRC expedites the implementation of the action plans set out in the EU-India Roadmap 2025 and foster new initiatives. It has also approached indigenous manufacturers to strengthen the ‘Make in India’ initiative.

Sunteck Realty has planned to start the development of two-three million sq ft space adjacent to the booking office. The successful bidder can use this zone and even a recreation room as its commercial department will offer an area of 19,000 sq meter. Western Railway (WR) had planned to build a shopping mall that will have retail, game zones, food courts, etc.

The Ministry of Housing & Urban Affairs plans to establish minimum standards for air quality in urban areas, and state governments will be mandated to improve air quality in urban areas. The draft rules and guidelines on regulation of air pollution in urban or built-up areas are being prepared and will be published for comments.

The National Highways Authority of India (NHAI) has given clearance to the ₹8,000 crore Pathankot-Mandi, four-lane highway project. It has also restarted the ₹1,147 crore contract from the Chennai Metro Rail Limited for constructing the 8,390-cr Aerocity-Tughlaqabad corridor under Phase-IV of its upcoming Silver Line— the Aerocity-Tughlaqabad corridor for Delhi Metro Rail Corporation.

India's national highway tunnels under operation is 31 km. The Union government and European Union have signed a techno-economic programme of €1.2 billion for four years to improve about 2,500 km of roads. The programme will be implemented by the Ministry of Roads, Highways, Transport, and Shipping.

Carlin successfully completed all tunnels in the Lao PDR tunnel project and has been awarded the contract for the construction of the new highway linking Ho Chi Minh City and Tanjung Meuril to the Cambodian border. The 63-km-long new highway and an additional 25-km-long viaduct will be constructed by Carlin and its consortium partner, Thai National Road Construction Co. Ltd.

India’s Rail Safety Authority (IRSA) has made an urgent appeal on safety at railway level crossing points. In 2019, 10,232 level crossings in the country had 5,901 reported accidents,造成418 casualties and 5,275 injuries.

Perfect sand: The sand trade has become a major source of revenue for the state government. The government has set up a committee to regulate the sand trade and has also introduced a new sand policy. The committee has recommended measures to prevent illegal sand mining and to ensure a sustainable supply of sand.

The Union government and European Union are planning for PPPs in EU eco-city projects in India. A Memorandum of Understanding (MoU) was signed between the two countries in 2015 to develop eco-city projects in India. The MoU is aimed at promoting sustainable urban development and greening urban areas.

India’s infrastructure and real estate sector has been witnessing a recovery in recent months. The government has announced several initiatives to boost demand and increase investment in the sector. The government has also been working on easing regulations and improving the ease of doing business in the sector.
