Ministry of Environment, Forest and Climate Change, Government of India
BAMUNIMAIDAM, GUWAHATI-21

No. SEIAA.280/2014/EC/77 Dated: 07/07/2021

To,
M/s Shristi Infrastructure Development Corp. Ltd.
5th Floor, Aasha Plaza, G.S. Road,
Opp. S.B. Deorah College, Ulubari
Guwahati- 781007

Sub: Extension of validity of Environmental Clearance for the Development of
Township at Noonmati, Guwahati, Assam.

Ref: Your application No. SIDCL/ GUW/2014/ 85/1345, dated-17/03/2021.

This has the reference to your application submitted along-with copy of Environmental
Clearance (EC) issued by MoEF, dated 10th August, 2014, compliance report, Transfer of
Environment Clearance in the name of M/s Shristi Housing Development Ltd and Extension of
validity period of Environment Clearance issued by SEIAA, dated 7th July, 2015, GMDA’s
Building bylaw & irrevocable power of attorney and subsequent submission of land
documents (i.e. myadi patta land holding certificate, land revenue receipt, non Encumbrance
certificate, Jamabandi copy, etc.), irrevocable power of attorney to Shristi Housing
Development Ltd (SHDL) & Development agreement dated 16th Dec, 2014 and reply of
queries on 18th Feb, 2015. Further, the project proponent has submitted an affidavit on no
financial implications and liabilities on Shristi Housing Development Ltd inherited from M/s.
Shristi Riverine Pvt. Ltd for extension of validity period of Environmental Clearance for the
proposed Shristi Nagar Township at Noonmati, Guwahati.

The application and the documents submitted by the M/s. Shristi Housing
Development Ltd. has been examined and scrutinized by the Authority in accordance with the
EIA notification, 2006 subsequent amendment there of.

The project proposal asking extension of EC for Development of Township at
Noonmati, Guwahati, Assam proposed by M/s Shristi Housing Development Ltd. is placed
before the SEAC for appraisal and detail discussion. The necessary documents are scrutinized
including the Compliance report submitted by the proponent. In the meantime, the Hon’ble
members of the SEAC conducted site visit on 16th Feb 2021 as per resolution of the SEAC
meeting held on 5th Dec. 2020. Detail deliberation is held on the project proposal and the
committee recommended for extension of EC for a period of 3 (three) years subject to
compliance to the observation made during field visit. The other terms and condition laid
down in the earlier EC will remain unchanged. The proponent shall have to strictly follow all
the terms and condition including timely submission of half yearly compliance report. The
SEAC committee has also resolved to conduct site visit in the month of Oct. 21 to assess the
situation and progress of activities.

Based on the recommendation of SEAC, Assam and the documents submitted by M/s.
Shristi Housing Development Ltd and SEIAA, Assam accords Extension of E.C. with
following conditions.

1) Any change in scope of work for the construction & operation of township at
Noonmati will attract the provision of Environment Protection Act, 1986 and EIA
notification 2006 in conjunction with the subsequent amendment/ circulars.

Report of field inspection to the Development of Township at Noonmati, Guwahati initiated by M/S. Shristi Infrastructure Development Corp. Ltd.

Date of Field visit: 16th Feb. 2021.

A team of the State Level Expert Appraisal Committee, Assam (SEAC) comprising the Chairman, SEAC and four Hon’ble members visited the above noted site on 16th Feb. 2021 as per resolution adopted in the SEAC meeting held on 5th Dec. 2020. Sri Abhijit Basu and others from the proponents’ side accompanied the visiting team during their field inspection. The Chairman, SEIAA, Assam also accompanied the visiting team during the inspection.

A brief discussion is held on the proposal and its current progress at the site office of M/S. Shristi Infrastructure Development Corp. Ltd.

Then the team inspected the site where constructional works undertaken under phase –I activities. The proposed area for phase –I activities is approx. 10 hect. On the way visited the plantation activities by the side of the road which has taken up very recently.

The following observation is made by the committee out of their field inspection.

1. Progress of work appears slow as already one extension of the EC was granted by SEIAA, Assam for 5 years w.e.f. 7th July 2015. The original EC was granted by the MoEF vide No. 21-4/2008-I A. III dt 10th Aug. 2009.
2. Construction of low rise apartment is in progress.
3. Development of roads over the area is also in progress.
4. Green belt activities/plantation has been started.
5. Storm water control works is in progress.
6. Land cutting on the hill slopes is noticed but appears adequate scientific measures has not been adopted. Natural slopes should have been maintained while cutting hill slopes to arrest reed/gully formation during monsoon season as the area receive sufficient precipitation during the rainy season. Such action will carry the loose soil to the downstream resulting block of the natural water course. Large and high face of hill cuttings shall have to be provided with required guard wall with sufficient weep holes to arrest soil erosion.
7. Plantation activities which has recently been stated. It is suggested to go for plantation choosing indigenous species particularly native of the site. Certain amount of ornamental plant species may be selected for plantation in consultation with the approved land development plan. It is urged to raise site nursery of local species to take up plantation activities covering entire project area during the monsoon season enabling the planted saplings to grow sufficient time before completion of the project.
8. The project proponent is requested to register the project to be GRIHA (Green Rating for Integrated Habitat Assessment) compliant or with IGBC (Indian Green Building Council) Rating Systems.
9. In case of construction of Roads in Hilly areas the Indian Roads Congress code IRC -SP-48-1998 is to be followed.
