

linelube Open Gear Grease

Product Description

A highly adhesive bitumen based extreme pressure lubricant used for heavy industrial open gears. Suitable for the lubrication of large girth gears, heavy wire ropes, chains, flexible couplings, gears and sliding surfaces of drag lines and shovels.

Features & Benefits

- High degree of adhesion to working surfaces
- Good load carrying properties
- Excellent water and corrosion resistance

Applications

Open Gear grease is recommended for use in open gears in particular those in exposed locations such as railways, mines, harbours and constructions sites. It can be applied by brush, pump or heated slump. To ease application, store at room temperature minimum 15°C.

Typical Test Data

Appearance	Heavy tacky compound
Colour	Black
Base Oil Viscosity @ 100°C (IP71) cSt	100
Pour Point (°C)	0
Flash Point (°C)	270
Minimum application Temperature (°C)	-5
Operating Temperature Range (°C)	-15 to 70
