

Standard Portable Toilet

If you need toilet facilities at your site or event, then our self contained portable toilet units will meet your needs.

We have a large stock of suitable toilet units which we can supply to your site, and can offer next day delivery when orders are placed before 3pm.

All of our units will be delivered and serviced weekly by staff trained to industry standards. So you can be assured that they will be safe working at your site.

Minimum Hire Period 2 weeks.

Features

- Designed for up to 7 users for a 40 hour working work.
- Recirculating flush toilet, ideal for when no mains water or waste drainage is available.
- Hand washing facilities.
- Sealed tank so no waste is visible to the user.
- Ventilated tank to prevent malodour .
- Totally self contained- No power/services required.
- Guaranteed weekly service included in hire rate

Hand Sanitiser

Can be added to all units as an extra feature if required.

This will then be refilled as part of your weekly service.

Just ask our hire team.

Weekly Service Guarantee

For long term hire all of our portable toilets are serviced once a week (apart from our mains flush toilets).

We empty the holding tank, refill with fresh water and chemicals and clean the inside of the toilet cabin.

We GUARANTEE weekly services providing the toilets are accessible so please make sure you we have easy access to them when we visit.
