

NEW YORK STATE THORACIC SOCIETY 2016 Annual Scientific Assembly

MARCH 18-19, 2016

Conference Location:

MEMORIAL SLOAN KETTERING CANCER CENTER
Zuckerman Auditorium
417 East 68th Street, New York, NY 10065

Memorial Sloan Kettering
Cancer Center™

Course Overview

This Scientific Assembly, which the Society holds each year, is regarded as one of the premier educational events of the year for those working in or close to the thoracic/respiratory field. Nationally known speakers covering a wide range of topics as well as case studies assembled by members that enable attendees to upgrade their knowledge in a forum, which allows for discussion at a level not usually found in many conferences. This has also proven to be an opportunity for attendees to interact with colleagues away from the demands of their practices/work settings.

TARGET AUDIENCE

Our target audience will be Pulmonologists, Critical Care Physicians / Intensivists, Sleep physicians, Pulmonary and Critical Care fellows in training, resident physicians with an interest in Pulmonary and Critical Care medicine, Pulmonary or Critical Care nurse practitioners, physician assistants and respiratory therapists.

EDUCATIONAL OBJECTIVES

By the end of this course, participants:

- Will be able to have new strategies to manage care of sepsis and navigate the recommended treatment bundles
- Will be able to have new strategies to manage care of respiratory failure and choose between ventilator strategies
- Will more appropriately refer and improve quality of life of patients for end-of-life care in the critical care setting
- Will learn new findings and management about non-pulmonary diseases that affect or manifest in the lungs
- Will learn new findings about and better diagnose sleep apnea

New York State Thoracic Society

The New York State Thoracic Society (NYSTS) is a State Chapter of the American Thoracic Society. Formerly called the New York State Trudeau Society, NYSTS is named after Edward Livingston Trudeau (1845-1915) for whom a lectureship at this annual meeting is named. The first American Investigator to culture the tubercle bacillus, the causative agent for tuberculosis, he founded Adirondack Cottage Sanitarium at Saranac Lake, NY in 1884 based on his own open air cure of tuberculosis.
