NEW WAVE
LEARNING

LEARNING JOURNEY

STAGE 1

WELCOME TO CREATIVE PROBLEM SOLVING

Participants are welcomed with a short intro session where they discover the purpose of the programme, introduce themselves and meet their group. They'll learn some top tips and key information right away and be ready and raring to get started!

STAGE 2

DIGITAL LEARNING

They now journey through the learning content that begins with looking at mindset and in particular the best type of mindset to have when approaching problem solving.

STAGE 3

PROBLEM SOLVING

Participant's now explore two very different but complementary tools to help them solve problems. The first tool excels in helping people generate lots and lots of ideas and then working their way down to the one best idea. The second tool helps participants look at all aspects of a problem so that they can better understand it and work together more efficiently.

STAGE 4

PRACTISE SESSION

It's now time for the final session where participants put all their learning and new learned tools into practise. They'll also learn and practise a third and final problem solving tool to take away and put to good use in the future!

FEES

£2500* + VAT *per cohort of up to 12

For larger cohorts please contact us to discuss volume based pricing.
