About RiseNY:

RiseNY has created an Educator's Guide that is aligned to NYSED Standards! With rich educational galleries for multiple grade levels, RiseNY provides learning opportunities across history, physics, finance, music, performing arts and more.

RiseNY features seven museum-quality galleries about prominent industries in NYC - finance, skyscrapers, radio/television, fashion, music, film, Broadway - as well as a short documentary film from Ric Burns about the history of NYC. Each gallery includes information about the history of the industry in NYC told through text panels and audio guides. Perfect for educational groups!

RiseNY also features a flight simulation ride that lifts guests 30 feet into the air to take in the splendor of NYC while suspended inside a 180-degree, 40-foot projection dome featuring 8K aerial footage that creates the sensation of flight. Full motion seats let guests dip, turn and soar, while wind, mist, and scents heighten the experience. There is a 40" height requirement to ride the RiseNY ride. Please see the FAQs: <https://www.riseny.co/faq> on our website for information about ride requirements.
