

0 WOW! Moment—The Highs & Lows of Pressure

What happens when you try to drink something with two straws—one inside the cup and one outside the cup?

MATERIALS

- ❖ 2 Straws
- ❖ Glass or Cup
- ❖ Something to Drink

GET SET UP

1. Grab two straws.
2. Find something to drink and pour it into a glass or cup.
3. Put both straws in your mouth.
4. Place one of your straws in the glass or cup of liquid and the other one *outside* the cup.
5. Use the muscles in your mouth to create pressure through both straws.
6. What happens?
