

Global Technology Leadership

We help technology companies build diverse and highly effective Board and Leadership teams. Through our executive search, assessment and leadership development services we work with our clients across the world to transform their performance through technology.

Global networks

With over thirty years expertise in the technology sector, we offer a global network of 36 locations and over 100 consultants assessing and delivering talent strategies. As the pace of change increases so does the demand for people who can lead in fast paced consumer focused markets. As market leaders we have a responsibility to remain relevant and ready to respond to our clients' needs.

Delivery

We have a track record across many industry sectors each with their own specific needs and cultures. To date we have worked with technology service providers, transforming heritage brands, professional services, P.E. and fast growth investments, as well as media & sport brands. We work across the traditional leadership spectrum of roles, as well as the board and the most innovative digital leadership roles.

Services

We help clients deliver their strategy through three service lines;

- **Executive Search and Leadership Services** – Harvey Nash Alumni has 150 consultants across 36 locations who appoint non-executives and executives to the board as well as leaders into the senior management team and interim roles across three key sectors: Healthcare & Academia, TMT and Consumer & Industry
- **Technology Recruitment** – For over 30 years Harvey Nash has been an expert in recruiting technology talent, in every possible way – from software developers to AI engineers, programme managers to CIOs. We can source your technology team from 1st line support all the way up the boardroom.
- **Software Development** – NashTech have been delivering solutions that solve business challenges and add value since 2000. They ensure organisations have the technology services they need to support their business growth through their advisory, software development and business process outsourcing services.
