

LIVESTOCK SEMI-TRAILERS

A HERITAGE OF INNOVATION BUILT INTO EVERY TRAILER

EBY's culture of craftsmanship and innovation is a family tradition that has been carefully cultivated over three generations. Born in 1938 as a wood livestock truck-body manufacturer, quality and customization quickly emerged as signatures of the young company. As the product line expanded into trailers and semi-trailers, ingenuity and forward-thinking distinguished the next generation as it helped revolutionize the industry with all-aluminum construction.

Now in its third generation as a family-run business, this heritage of innovation is firmly welded into its DNA. While modern manufacturing capabilities—such as computer-aided engineering and precision robotics—help provide customers with the most durable, longest-lasting product, it's the people behind the processes that make an EB Y trailer really shine.

As a heritage of innovation is built into every trailer, a family of sales, service, design, engineering, manufacturing and support stands behind it... and EB Y welcomes you into the family.

BULL RIDE SEMI-TRAILERS

Top-of-the-line semi design

Bull Ride trailers feature the industry's lightest-weight integrated trailer suspension, slip-resistant flooring and components that withstand animal usage and road conditions.

EBY offers standard configurations for cattle, hog, and sheep transportation, but also custom builds trailers to meet the unique requirements of individual customers. From finding a special component, to designing equipment for the way you do business, our sales and engineering staff work with you to achieve your livestock transportation objectives.

BULL RIDE

TRANS PORK SEMI-TRAILERS

Engineered for a healthy pork industry

Trans Pork trailers are available in standard configurations for all facets of pork production—from wean pigs and feeder pigs, to market hogs and breeding stock. The fully-welded floor and innovative design assure easy clean-up and maximum protection against animal disease. Trans Pork also features the most air openings in the industry for better ventilation.

TRANS PORK

Standard Sizes:

- Standard lengths up to 53'
- Multiple axle configurations
- Custom sizes available
- Slat-side or punch-side

TRANS PORK ADVANTAGE SEMI-TRAILERS

Superior design that gives operators the upper hand

Trans Pork Advantage trailers are engineered to ensure the safe and healthy transport of hogs—as well as efficient and comfortable operation for their handlers. The Trans Pork Advantage Semi raises the bar with innovative features that provide the ultimate in operator convenience and livestock health. EBY's unique, adjustable slats allow operators to control ventilation with precision, while the interior design provides easy clean-up and maximum protection against animal disease.

YOUR PASSION *IS OUR PURPOSE*[™]

We're a third-generation, family-run business built on a heritage of innovation. Since 1938, EBY has understood your passion for excellence. Selecting the best tools and materials, doing the job right, and standing behind our work are not optional—they're a way of life. At EBY, we're committed to giving our customers our best.

Designed with superior structural integrity and fabricated for remarkable durability, EBY aluminum livestock semi-trailers are built for the long haul. Equipped with impressive features and a comprehensive level of customization, EBY trailers provide the broadest range of options and unmatched user convenience in the industry today.

That's our purpose...constructing livestock semi-trailers that help you live out your passion.

GROUND LOAD SEMI-TRAILERS

As easy to load as a gooseneck

EBY's Ground Load trailers are designed to combine the strength and durability of our legendary Bull Ride trailers with the ease of loading anywhere like our gooseneck trailers. Standard configurations are available, as well as custom-built trailers to meet the unique requirements of specialized livestock hauling.

GROUND LOAD

Standard Sizes:

Lengths: 34' to 53'

Width: 102"

STRAIGHT CUSTOM SEMI-TRAILERS

The ultimate in customization

Tell us what you need and we'll design a custom straight-deck aluminum trailer that meets your specific requirements. EBY's heritage of innovation lets us deliver a unique trailer for your operation.

STRAIGHT CUSTOM

Standard Sizes:

Lengths: 34' to 53'

Width: 102"

Straight Custom

STANDARD FEATURES

Designed with superior structural integrity and fabricated for remarkable durability, EBY livestock semi-trailers provide easier operation for handlers and greater comfort for valuable cargo. Below are just some of the standard features that make EBY the most refined, strongest and quietest trailers ever.

6061 Alloy heat-treated aluminum diamond plate flooring

Clean internal roof rail—no exposed wiring

No-step pull-out ramp*

Internal tubular cross-members

Gate hold back/slam latch feature

Heavy-duty divider gates (*available in tube style, as shown, or pan style*)

Closure track posts, with tapered notching for easier closure installation

All-aluminum sub-frame

POPULAR OPTIONS

While the standard features on EBY livestock semi-trailers are impressive, they can also be fully customized to fit your specific needs.

Multiple axle configurations (including lift axles)

Rear side door (bio door)

Premium roll-up door and hardware package

Closure storage boxes

Lighted sign on nose

Crank-up nose deck

Fold-to-wall ramp

Extended ramps

EBY offers a wide variety of options to customize your semi to your specific needs. Contact your authorized EBY dealer or factory representative for more information.
