

Commercial Design Engineer/Estimator at XciteAV:

For 13 years Brian has been specializing in the design and proposal process for all Commercial A/V Projects. He maintains a perfect line of communication with the design team and the Owner. This is critical to the success of the project. Brian holds Design Review meetings with the Project Manager to ensure functional designs and coordinated scheduling.

XciteAV's mission statement is executed on a daily basis and all communication is timely and prompt. Brian ensures that the expectations every customer is met and each project is a success!

Brian demonstrates an efficient and dynamic edge to his daily duties. Customer follow up is an integral part of the sales process. Always listening to the customer ensures that Xcite AV exceeds the customer's expectations.
