

## GE Enduris™ Liquid Flashing Now Available in Sausage Packs

02/22/2021

WATERFORD, New York – (January 19<sup>th</sup>, 2021) – Momentive Performance Materials Inc. (“Momentive”), a global leader in silicones and advanced materials, today announced today the launch of its new sausage packs for GE Enduris Liquid Flashing, a key product in the company’s GE Silicones brand of construction coatings and sealants.

With the introduction of the sausage packs, GE Enduris Liquid Flashing can now be loaded into specialized equipment, such as Albion Engineering’s B12B39HJ gun and Spot-Pro Extension Nozzle system, and applied to fastener heads on metal roofs – making the application process quicker and easier, while also helping to reduce the risk of back strain.

*“Sealing fastener heads on metal roofs can be a time-consuming task, and hard on your back as well. With our new sausage packs, GE Enduris Liquid Flashing can now be applied quicker, easier and more precisely – with no bending over required. There’s no need to mix or knead – just load a sausage pack in your gun, and you’re ready to get to work.”*

**Bob Creighton, Senior Product Marketing Manager.**

GE Enduris Liquid Flashing is a 100% silicone, single-component sealant can deliver effective repairs and long-term protection to virtually all types of roofing substrates and construction materials, in any environment.

Waterproof and rain ready in as little as 30 minutes, it can be applied year-round, in temperatures ranging from 0°F to 120°F (-17°C to 49°C). GE Enduris Liquid Flashing is unaffected by ponding water, and offers proven protection against the damaging effects of rain, snow, wind, UV rays and temperature extremes.

In addition to the new sausage packs, GE Enduris Liquid Flashing is also available in 2 gallon pails - for sealing cracks, seams, perimeters and penetrations against air and water leaks.

Additional performance and warranty information on GE Enduris Liquid Flashing, and other GE Silicones solutions, can be found at [siliconeforbuilding.com](http://siliconeforbuilding.com).

### ABOUT MOMENTIVE

Momentive Performance Materials, Inc. is a global leader in silicones and advanced materials, with a 75-year heritage of being first to market with performance applications for major industries that support and improve everyday life. The Company delivers science-based solutions by linking custom technology platforms to customer needs. Momentive Performance Materials Inc. is an indirect wholly owned subsidiary of MOM Holding Company.
