STABLE DOORS

Hallmark composite stable doors are just as at home in a modern property as they are in their traditional country cottage setting. Manufactured from the same core materials as our market leading 44mm Entrance Composite Doors, the stable doors offer the same consistently high level of quality and security that you expect from all Hallmark door products.

Colour Bond Service

In addition to the standard colours shown, for a small surcharge our stable doors are available in any specified RAL colour of choice.

WINKHAUS TRU-LOCK

WINKHAUS TRULOCK multi-point locking systems are fitted to all Elite Composite doors as standard. Superbly engineered, the Trulock mechanism is approved by the 'Secured by Design' Police initiative. Manufactured to meet the requirements of a modern door design, the Trulock delivers enhanced performance using low friction hook thrust plates for a smooth, precise operation.

YALE Dual Ring Pull

Available in Chrome, Gold and Satin Silver - dual sided as standard.

WINKHAUS HERITAGE LOCK

The **WINKHAUS HERITAGE** multi-point locking system has a slam-shut operation whereby the lock hooks will automatically engage once the door is closed. A key is then required to gain entry from the outside.

The key cylinder is positioned 3/4 of the way up the door - similar to traditional period doors. From the outside the lock is key operated with a chrome or gold ring pull plate and from the inside by a thumbturn (or key if used with an internal handle to aid door opening).

KEYWIND LOCK

Used with the S-Series Bar Handles, the keywind lock has the cylinder positioned at midrail height. The lock is operated from the outside with a keywind operation and from the inside with a keywind or thumbturn operation.

ENTRY GUARD

The Lever/Lever Trulock is available with an integral TruGuard bar offering a higher security level compared to a traditional door chain.

WINKHAUS AV3

The autoLock AV3 locking system from Winkhaus is an automatic multi-point locking system with independently acting hooks for claw action and sealing elements for a dynamic contact pressure. Triggered by means of a magnetic release on the frame and the door is secured against undesired entry. This ensures that the door always remains securely locked and remains firmly in its frame even without additional locking. The sturdy hooks, sealing elements and latch can be retracted manually using the locking cylinder or door handle.

STANDARD DOOR COLOURS

Choose from **seven standard colours** catering for most preferences and aesthetic appeal.

BLACK

RED

GREEN

BLUE

WHITE

ROSEWOOD

GOLDEN OAK

COLOUR BONDING

Got a particular colour in mind? Enhance your entrance with a choice of vibrant, modern door colours all of which can be supplied with colour matched frames and coloured edge banding.

CHOICE OF FRAME PROFILE

Complete the look. Select from either a Chamfered or Sculptured frame profile to compliment existing windows & doors.

Chamfered

Sculptured

Traditional **FURNITURE**

Stainless steel, traditional gold, chrome, white and black hardware is available across our composite door collection including matching letterplates, letters and numbers, contemporary and traditional knockers and door knobs.

Ultimate **THERMAL** Efficiency

Thanks to a high performance CFC-free PV foam insulating core, the Hallmark Elite Door Collection helps you keep the warmth in and cold and noise out.

48mm Solid Timber Core Composite Door

44mm Timber Panelled Door

Our 44mm Elite Composite Door

The Elite 44mm composite doors have been tested in comparison with a 48mm solid timber core composite door and a 44mm timber panelled door.

The images above show the thermal efficiency of each door type. Dark blue areas indicate lower heat loss. Red and green indicates higher heat loss.

Elite Composite Doors are:

19% more thermally efficient than the 48mm solid timber core composite door.
17% more thermally efficient than the 44mm traditional timber panelled door.

Contemporary DESIGN

In addition to the traditional lever handles shown opposite, **stainless steel bar handles** are also available and designed to enhance the look of the modern home, creating a stunning, contemporary entrance.

THRESHOLD Options

As well as the standard, integral frame threshold, there are a number of low threshold options available including low 15mm and 44mm aluminium, low 56mm PVCu frame and MDS Mobility Door Cill options.

44mm Aluminium

56mm PVCu
