

## **ADACEL PROVIDES AIRBUS WITH ADVANCED SIMULATION TOOLS FOR RESEARCH AND DEVELOPMENT PROGRAMS**

Orlando, FL (March 1, 2006) – Adacel, an industry leader in software integration, simulation development, and speech recognition technology, announced today it is to supply advanced simulation tools to aviation leader Airbus, to use in the development and evaluation of flight components across a range of new and existing Airbus aircraft.

Under the latest order, which follows an earlier contract from 2005, Adacel will supply tactical military simulation tools, including Air-to-Air Refuelling scenarios, for the validation of tanker / receiver procedures, cockpit Human Machine Interface operations and the testing of onboard avionics equipment.

Adacel's Air Traffic Generator will create simulated air traffic and Air-to-Air Refuelling environment, which will be integrated with multiple Airbus applications in development and evaluation programs.

"We are pleased to announce this latest contract. Airbus is an important strategic customer for Adacel and their confidence in our array of simulation tools is gratifying," stated Fred Sheldon, Adacel's North American CEO. "This latest contract paves the way for the continued evolution of the simulation tool set we can deliver to aircraft builders around the world."

The Adacel Air Traffic Generator is based on the internationally successful MaxSim ATC simulator used in 30 countries around the world.

Adacel's simulation and speech recognition technology, with upgrades, is anticipated to support Airbus research and development efforts well into the future.

### **About Adacel**

Adacel is a global software technology and systems integration leader. The company is a leading developer of critical aviation (air traffic management), speech recognition, and defense simulation and security systems for government and business entities. Support services are available for all products including full-time, on site maintenance and operation of the systems.

Adacel's products can be found in more than 30 countries. The company is committed to innovative research and development and industry leading customer support.

Adacel was established in 1987 and listed on the ASX in 1998 (ASX: ADA). The Company's U.S. operations area headquartered in the I-4 Technology Corridor of Orlando, Florida. Adacel has offices in Washington, D.C., Montreal Canada, Melbourne, Australia and Manchester, United Kingdom.
