Adacel Names New Director of Business Development

Industry veteran Marcus P. Stevens joins the Company to solidify and grow nationwide sales effort

Orlando, FL (August 28, 2006) – Adacel, an industry leader in software integration, simulation development, and speech recognition technology, announced today that it has hired industry veteran Marcus P. Stevens as Director, Business Development U.S. Training and Simulation.

In this role, Mr. Stevens is responsible for developing and managing the Simulation and Training business development and sales effort throughout the United States. He will be located at the North American Company's headquarters in Orlando, Florida.

"We are pleased to have Marc Stevens join Adacel. His hiring adds another talented executive with a depth of aviation industry knowledge to the Adacel team. We will rely on Marc to coordinate and deliver a focused sales effort that will allow us to better serve and support our customers and partners," said Fred Sheldon, Adacel's CEO North America. "His aviation, air traffic management and military background is ideal for our needs, and we are excited about the opportunities Marc will develop for the company."

Mr. Stevens has over 15 years of experience dealing with systems development, enhancement, and implementation in the aviation and defense industry. Additionally, he is skilled in resource management, and corporate asset management and development

He was most recently with The Mitre Corporation in McLean, Virginia. Prior to that, he held senior positions with Aeronautical Services Agency (U.S. Army), Directorate of Evaluations and Standards (U.S. Army), and was chief instructor at the Air Operations Training Committee (U.S. Army) in Ft. Rucker, Alabama.

He holds a Master of Science in Systems Engineering from The Johns Hopkins University, a Master of Science in Human Resource Management from Troy State University, and a Bachelor of Science from Embry-Riddle Aeronautical University.

About Adacel
