Adacel Secures IDIQ Sub-Contract with United States Army

New Contract Extends Company's Advanced Aviation Simulation and Training Activities

Orlando, FL (August 10, 2006) – Adacel, an industry leader in simulation development, software integration, and speech recognition technology, announced today that the United States Army has approved the Company's addition to the STRICOM Omnibus Contract (STOC) Indefinite Delivery/Indefinite Quantity (IDIQ) through prime contractor Computer Sciences Corporation (CSC).

The STRICOM Omnibus Contract (STOC) is an eight year ID/IQ contract structured to allow STRICOM to acquire the full spectrum of Simulation, Training, Modeling, and Test Instrumentation products and services to support Warfighter needs throughout the Army, DoD, and related government agencies. This contract permits the issuance of task orders for modeling and simulation efforts at any phase within the acquisition life cycle.

"Adacel is pleased to expand its relationship with Computer Sciences Corporation and we look forward to providing cutting-edge simulation tools, and experienced engineering and aviation professionals in support of our nation's warfighter's" states Fred Sheldon, Adacel's CEO North America. "This relationship reassures us that our products and support capability are among the finest in the world, and we appreciate the Army's confidence in Adacel."

Adacel will provide real time and simulation engineering services, air traffic management simulation products and capabilities and centralized and on-site support services to all components of the DOD. Adacel looks forward to expanding their advanced product lines such as speech recognition, security simulation and assessment and flight simulation technologies.

"Adacel is a reliable advanced simulation company", stated Jerome Scheringer, Computer Science Corporations' Contracting Officer. "Adacel has proven to have the outstanding aviation simulation capabilities, superior customer support, and depth of simulation knowledge and experience to serve as the valued partner for this important project."

About Computer Sciences Corporation

Founded in 1959, Computer Sciences Corporation is a leading global IT services company. CSC's mission is to provide customers in industry and government with solutions crafted to meet their specific challenges and enable them to profit from the advanced use of technology.

With approximately 78,000 employees, CSC provides innovative solutions for customers around the world by applying leading technologies and CSC's own advanced capabilities. These include systems design and integration; IT and business process outsourcing; applications software development; Web and application hosting; and management consulting. Headquartered in El Segundo, Calif., CSC reported revenue of \$14.6 billion for the 12 months ended June 30, 2006. For more information, visit the company's Web site at www.csc.com.

About Adacel

Adacel (ASX: ADA) is a global software technology and systems integrator. The company is a leading developer of critical aviation, speech recognition, and defense simulation and security systems for government and commercial enterprises. Support services are available for all products including full-time, on-site operation and maintenance.

Adacel was established in 1987. The company's products can be found in more than 30 countries. Adacel's North American operations are headquartered in Orlando, Florida and has offices in Washington, D.C., Montreal Canada, and Melbourne, Australia.
