**WE WILL CONTACT YOU FOR PAYMENT WHEN ORDER IS RECEIVED.**  
**If you want to pay with check or money order then make the payment payable to Spartan Photo Center.**

We can transfer movie film in 8mm, Super 8 and 16mm format to DVD, flashdrive or send to you via the cloud. We only convert home footage and any copyright protected material will not be converted. Pricing is below.

Please note: If your film reels contain audio then the audio portion WILL NOT be transferred. The footage you receive will be silent.

## Movie Film to Digital - Prices

**First 400 Feet: \$90.00** **Every foot after that: \$0.24 per foot**

**Not sure how long your movie reels are? Use our guide below.**

### Movie Film Reel Footage Calculator

Use this calculator below for assistance if unsure how much footage you have.

**How to Use:** Place movie reel on top of the lines below. Line up the edge of the reel to the edge of the small vertical line on the left side. The other edge of your reel will line up with either the 3", 5", or 7" vertical line on the right side. Whichever one it lines up with will tell you how long the film is on that reel. **NOTE:** Some movie reels will have indicator marks on them to inform you the length of footage that is on the reel and you can use that to determine how much film is on the reel. If a reel does show you indicator marks but reel is partially filled then round up to the nearest 100 of the indicator marks.

Ex. Reel is estimated at 230ft. Please round up to 300ft.

**Your price will be prorated to the actual footage length you have when it is properly measured by our technicians.**

Below is what each movie film will look like and its approximate size.

3" reel - 50 feet

5" reel - 200 feet

7" reel - 400 feet

# 8mm, Super 8, 16mm to DVD

**1** **A** Write the quantity of reels for this order:

**B** What is the approximate length of your reels added together?  feet  
If you need help refer to the calculator on Page 1 for assistance in determining the length.
