

634 AI and MusashiAI Showcased their “Go Live” Versions of the MAESTRO Platform and the Inspector at an Event Held in Toyohashi, Japan on April 25, 2023

Dear Shareholders of SIXAI,

We are happy to share with you that on April 25, 2023, Musashi Seimitsu and SIXAI held a launch event for 634 AI's MAESTRO platform and MusashiAI's Robot Inspector in Toyohashi, Japan, to showcase the “go live” versions of their solutions. The launch event was scheduled after extensive real-world testing of the solutions, that have benefitted from refinement and evolution, resulting in easily deployable and reliable solutions.

Now, as the solutions are ready for global roll-out, our focus for both 634 AI and MusashiAI is to leverage their sales teams and global locations as they work to deliver solutions to additional customers worldwide.

The event was attended by customers, partners, investors, and press presented with the latest 634 AI and MusashiAI's solutions, which have already secured significant customer interest in Japan, Israel, and North America. Notably, 634 AI announced an order from Musashi Seimitsu for 200 MAESTRO-powered AMRs and related AI enabled systems back in August 2022.

We are pleased by the extend media coverage that the event received by both Japanese and international media. A few links are available below and on SIXAI's Shareholder Platform.

A video of the event is also available on the platform.

We are excited to move forward backed up by the positive momentum and feedback.

Kind Regards,

Ran Poliakine & SIXAI Team
