

Planning Director's Report

December 2022

Overview

As the Director of Planning for the Central Mississippi Continuum of Care, I will strive to ensure that the Board of Directors, Continuum Members, and the public are consistently informed and made abreast of how the Continuum is performing to ultimately eradicate homelessness in Central Mississippi. The Stellar Performance Report provided below is a data visualization of the longitudinal systems analysis dataset that is used to help our continuum/community understand how our homeless response system has been performing on critical performance measures. The performance reflected below is for the reporting period of 10/01/2021 through 09/30/2022.

System Performance Map

Households use different combinations of project types during the time they are served in the homeless system. These project type combinations are referred to as pathways. Each pathway has different average cumulative days homeless, exits to permanent housing and returns to the homeless system. The system map shows performance for the main project types in the homeless system and can be filtered to show performance for the main pathways.
