

**June 24, 2020**

**Dear Family Members of The Johnson Center and West Falls Center Residents,**

Since our last update, we have had one additional confirmed COVID-19 positive case in health care. Since notification of our first case on March 28, we have now had a total of sixteen confirmed cases in The Johnson Center, and ten confirmed cases in West Falls Center. Six residents have died, and those residents lived at The Johnson Center, either in Nursing or Assisted Living, and the West Falls Center.

We have one resident currently in isolation due to positive COVID-19 tests or symptoms consistent with COVID-19.

We have two direct-care staff on quarantine for COVID-19 who have tested positive, are awaiting a test result, or have symptoms consistent with COVID-19.

As Virginia continues to progress with “Forward Virginia,” we at The Johnson Center and West Falls Center are evaluating any interim changes that have been put in place beginning March 14<sup>th</sup>, 2020. In coordination with the Virginia Department of Health and Loudoun County Department of Health, we will implement guidance per their direction, and ensure each of you have a clear understanding of the changes being made as we move forward in the coming weeks and months.

Take good care, and please don’t hesitate to reach out with any questions or concerns.

Sincerely,

John Loop

Director of Health Services
