

July 17, 2020

Dear Family Members of The Johnson Center and West Falls Center Residents,

Since our last update, we have had no additional confirmed COVID-19 positive case in health care. Since notification of our first case on March 28, 2020, we have now had a total of sixteen confirmed cases in The Johnson Center, and ten confirmed cases in West Falls Center. Six residents have died, and those residents lived at The Johnson Center, either in Nursing or Assisted Living, and the West Falls Center.

We have no resident currently in isolation due to positive COVID-19 tests or symptoms consistent with COVID-19.

We have one direct-care staff on quarantine for COVID-19 who have tested positive, are awaiting a test result, or have symptoms consistent with COVID-19.

Our staff continue to wear all PPE (personal protective equipment such as gowns, gloves, masks, and face shields) recommended per the Virginia Department of Health and the Loudoun County Health Department guidance when entering resident rooms and providing direct care to your family member. We continue to follow strict infection control protocols in the sanitation and cleaning of all resident spaces to include all common areas and each resident room.

Take good care, and please don't hesitate to reach out with any questions or concerns.

Sincerely,

John Loop

Director of Health Services
