

# OUR TOP PACKING TIPS

**YOU  
MOVE  
ME** ♥

Stay organized leading up to your move with our essential packing checklist. Follow these helpful tips and timelines to get you organized.

## 1. BOXES, BOXES, AND MORE BOXES!

Get boxes in a variety of sizes, either professional moving boxes or plastic moving totes. You'll also need packing paper, tape, a tape gun, bubble wrap, mattress bags, etc.

## 2. FOLLOW THE GOLDEN RULE OF PACKING.

The heavier the item, the smaller the box! Be sure to fill boxes to the top so they don't collapse and make sure they're not too heavy to carry!

## 3. KEEP FRAGILE ITEMS TOGETHER.

Pack wine glasses and stemware separately. Wrap all breakable items in paper and pack them standing up in boxes.

## 4. PUT LABELS WHERE YOU CAN SEE THEM.

Label each box on the side, not the top. When you unload, you'll know what's in it and which room it goes in.

## 5. ONE BOX, ONE ROOM.

Pack the same room in the same box. Don't mix, or you'll never be able to find anything.

## 6. KEEP IT TOGETHER.

Make sure all containers and boxes are properly closed before you move them.

## 7. STEP AWAY FROM THE BOXES!

Moving day will be busy, and you won't have time to properly pack. Have all your packing done and start the day organized and ready to go.

## 8. KEEP YOUR MOST IMPORTANT THINGS WITH YOU.

Pack a bag with a change of clothes, toiletries, prescription medications, and other essentials for the first night.
