FOR IMMEDIATE RELEASE:

Pilot Thomas Logistics Expands Gulf Coast Reach to Entire Texas Coast

PTL Marine Operation Ahead of Schedule in Serving Customers in Gulf Coast Market

FORT WORTH (November 20, 2020) – Pilot Thomas Logistics (PTL) and its family of companies including Radcliff/Economy, Maxum Petroleum, and Economy Boat Store, have announced that PTL has received authorization from MSD Victoria to perform over the water transfers in the Houston-Galveston and Texas City Sectors. The authorization expands and extends the service area that now encompasses the entire Western Gulf Coast from Brownsville, Texas to Lake Charles, La.

Bill Swendsen, Senior Director Marine Sales – Gulf Coast, was quick to hail the news, “We’ve had early operational success in Brownsville, Corpus Christi, Ingleside, Point Comfort, Beaumont, Port Arthur, Orange, Sabine Pass & Lake Charles.” He added, “This new approval extends our reach to the ports of Houston, Bayport, Texas City, Galveston and Freeport.”

Swendsen has been busy developing new business opportunities serving marine customers since the company ventured into this area in April of 2020. The company offers barge and truck delivered fuel, lubricants, chemicals and petroleum solutions in these markets.

“We’re tremendously pleased with our progress on the Texas coast. We brought decades of experience from managing our operation in Mobile, Ala., the inland waterways and the U.S. West Coast and applied an investment in leadership and an intense focus on customer service to our Texas and Louisiana ports,” said Dennis Cassidy, President and CEO of Pilot Thomas Logistics. “Our PTL Marine operations are heading in exciting directions, and we are ahead of our growth plan despite obvious challenges this year.”
