NCLEX Preparatory Program

Enhance theoretical knowledge and practical skills at the

AIAS RN-PREP NCLEX & OSCE Preparation Course

Assisting Internationally qualified Nurses to gain accreditation from the Australian Health Practitioners Regulation Agency (AHPRA).

Our expert teachers will provide step-by-step assistance to nurses assisting them to sit the NCLEX & OSCE assessments.

NCELEX-001 | OSCE-002

NCLEX & OSCE RN Preparation Courses

AIAS is proud of our Outcome Based Assessment (OBA) course for overseas registered nurses. Our teachers will provide step-by-step assistance to nurses for obtaining approval to sit the NCLEX and guide them through the preparation for assessment.

The courses are specifically designed to prepare you to complete the two stages of the OBA: NCLEX and OSCE so that you may become a working Registered Nurse within Australia.

This course reflects the role of nurses in Australia. Work required involves using discretion and judgement in relation to clients as well as taking responsibility for own actions. The course will have a range of factual, technical and procedural knowledge, as well as some theoretical understanding of the concepts and practices to provide holistic person-centred care.

You will be taught the essentials skills and knowledge to competently care for patients as a Registered Nurse in Australia. The course will prepare you with workshops, simulations, foundational knowledge, communication techniques and practical skills to give you a better opportunity in passing the OSCE assessment.

Pathways

After successful completion of the course and assessment, you are able to apply to Australian Health Providers Regulation Agency (APHRA) for registration with Nursing and Midwifery Board of Australia (NMBA).
