Collaborating with Funky Vinyl

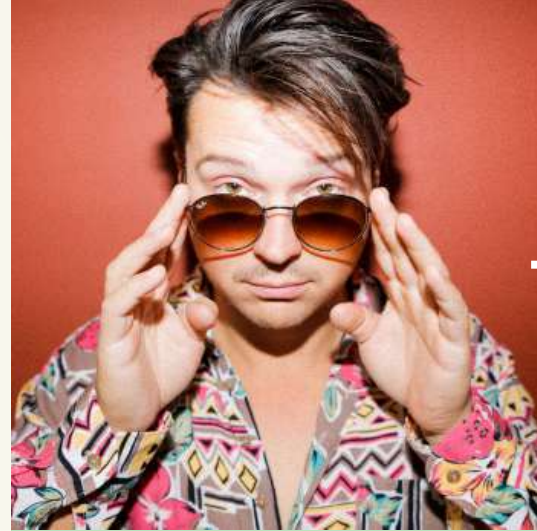

The DJs

Not everyone likes the same music, you don't always feel like having the same kind of party. Because we don't feel like eating pizza every day, but we like some variety. We organize parties and work with DJs with diverse music genres.

Funky Vinyl works exclusively with DJs that have a sense for their audience and are experienced in making every party a success. Every DJ has a speciality, the knowledge and empathy to adapt to the occasion. Our vision is to match the right DJ with the right party. Our goal is to always make the perfect match.

Why do we prefer to play with vinyl?

It's a feeling, an addiction, a passion for music. Vinyl DJs spend a lot of resources and love to select the music that should not be missed in their selection. In addition, it is a feeling, playing records is very different from digitally stored music. Above all, there is nothing more satisfying than finding the right record and spinning it for a full dance floor. Of course, we are aware that we live in a digital era, meaning that our DJs can always play any music request.

Rental equipment & decoration

Funky Vinyl supplies the necessary equipment in combination with every DJ hired from the collective. In addition, we have a lot of decoration in house and we work together with numerous stylists who can take care of your party down to the final detail. Name a theme, we'll take care of the rest!

Live entertainment

All our DJs spin records just as easily as spools of thread. But a good live act can turn a good party into an unforgettable evening.

Funky Vinyl collaborates with bands, dancers, drags, singers, artists, fortune tellers and many other artists.

One of our successes is the band - DJ combination, live musicians and DJ playing and alternating flawlessly together.

Party Planner

This is our sister organisation. Party Planner, ties up all the loose ends. It doesn't matter what you are looking for, from the location to the craziest ideas for weddings (wedding planners), caterers, live performances or presentations. Party Planner fixes everything. Check out www.partyplanner.nu or send us an email with your questions and wishes, we look forward to your request!

Nobody Knows

DJ Nobody Knows (Matthijs Spanjaart) is the founder and the creative brain behind Funky Vinyl. Nobody Knows is his philosophy.

In short, it's comfortable and easy to always stick to what you know, whether it's music, the city you come from, your favourite restaurant or your regular group of friends.

Nobody Knows challenges you to step out of your comfort zone. Discover new music, appreciate new flavours, embrace new people and liberate yourself to what you don't know yet.

By opening up to everything you don't know yet and giving it a serious chance.

It will help us to understand the world around you a bit better. Want to know more or are you interested in the Nobody Knows events? Please contact Funky Vinyl.

Joie de Vivre

Good food, a nice glass of wine, live chansons and a Funky Vinyl DJ specialized in French music to top off a party. Do we need to say more?

The best dutch chanson singer Gerard Alderliefste and Funky Vinyl, in combination with an extensive French dinner. Turn the location or caterer into a day to celebrate life.

The Rave

Raving is living, we know that saying. But according to Funky Vinyl founder Nobody Knows, it really is. House, techno, disco, a wooded area, beautiful beach club or private location. We build a rave as it should be. Lots of craziness, loud music and a full dance floor.

Dubstation

Shamba Lion Soundsystem is a reggae crew in the tradition that started in Jamaica in the 1950s. They literally build their own physical wall of sound. Perfectly tuned to reggae music. Dubstation at the Beach in Zandvoort and Reggae Sound & Culture in Amsterdam are our showpieces in the Reggae scene.
