

Wellington Blood and Cancer Centre (WBCC)

**Medical Alert: Neutropenic fever, Cytokine Release Syndrome (CRS) and Neurotoxicity**

Name: \_\_\_\_\_ NHI: \_\_\_\_\_

I received an investigational CAR-T cell therapy (ClinicalTrials.gov reference NCT04049513. I am at risk of **Neutropenic Fever, Cytokine Release Syndrome (CRS)** and **Neurotoxicity (ICANS)**. If I am febrile or infection is suspected, start antibiotics (see overleaf) immediately pending neutrophil count, and review PML for CRS treatment algorithms. For confusion, inattention or seizures, review PML for ICANS treatment algorithms. Contact Haematology Consultant on-call via Wellington Hospital switchboard, or Dr XXXX, Principal Investigator.
