IndexAtlas Exits Its Investment in Online Broker DIF, Sells to Spanish Bank

September 15, 2021 – IndexAtlas (along with all other shareholders of DIF Broker) has sold all of its ownership interest in DIF Broker (www.difbroker.com), the market leading online brokerage firm in Iberia and Latin America to a Spanish financial services group BiG.

This is IndexAtlas' third successful exit from online financial services business after a highly profitable investment into Eastern European franchise of E*TRADE Group (E*TRADE Eurasia, sold to E*TRADE Group in 1999), and caibon Internet Services AG (an online brokerage business of Creditanstalt Investment Bank, subsequently sold and integrated into Bank Austria Group in 2001).

IndexAtlas was a minority investor in DIF Broker for slightly over three years.
