

**New Special Situations Deals from IndexAtlas:
Chicken Soup for the Soul Entertainment Inc and Naked Wines Plc
Structured Trades**

November 21, 2023, Basel (Switzerland) – IndexAtlas AG, a special situation investment firm focused on media and collectibles industries, have launched two new and unrelated structured trades this week.

Chicken Soup for the Soul Entertainment Inc (CSSE: NMQ) is the USA-listed media company with approximately \$250m in revenues, \$500m in debt and \$8m in market cap on the eve of a major workout and restructuring with significant vulnerabilities to a potential activist's attack. We have thoroughly researched the subject and have activated a high-risk short-term speculative trading strategy focused on various CSSE securities (this strategy is not an activist attack).

Naked Wines Inc (WINE: LSE) is an innovative UK-listed firm catering to wine collectors and connoisseurs that just went through the management change that forced the original founder to come back to the helm of the company. IndexAtlas trading strategy here is to go long on Naked Wines Plc equity as we see this category leader being severely undervalued at its GBP 27m market cap and its stock poised to re-price upwards following the leadership change.
