

# Scafell

Scafell  
by Deadgood Studio

## WHAT

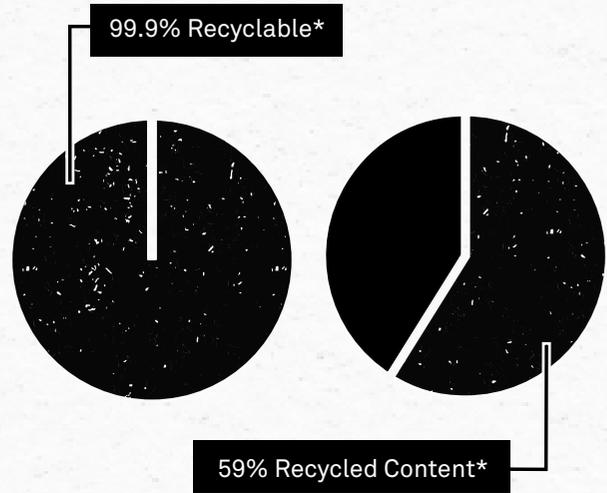

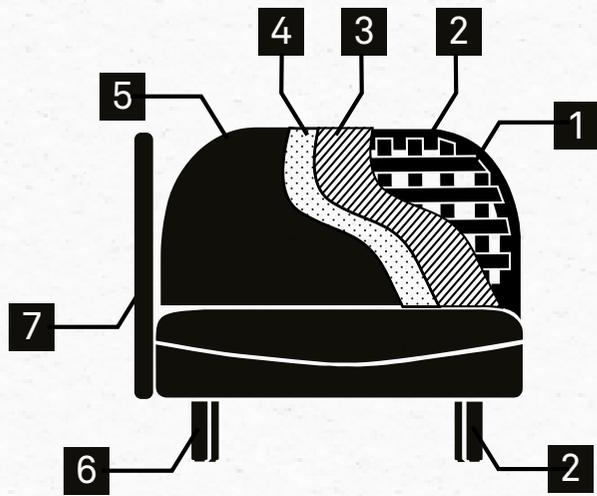

A simple modular sofa system with a comfortable and generously proportioned seat, a playful colourway and a subtle smiling stitch detail.

## WHY

Designed for the commercial interior with a nod to the natural environment to create a playful, calming and organic seating arrangement.

## HOW

The pieces are made in the UK and built to last a lifetime. The voluptuous curves are a subtle reference to the rolling hills of the Lake District and aim to evoke a sense of calm.

MATERIAL	RECYCLED CONTENT	RECYCLABLE CONTENT

- \*\*\* Other RALs available

These attributes can help you to achieve criteria towards LEED, BREEAM, Ska and WELL certifications.

Our aim is to develop a sustainable business that meets consumer needs without compromising our future welfare. Our products can contribute to the sustainability goals of a commercial project and we are proud to be able to offer FSC®-certified products and use recycled metals. Where sustainable sources are quoted, and a chain of custody is required, this must be indicated on the purchase order. A chain of custody requested after an order has been placed will not be possible to recover. Figures stated in the summaries may vary based on model and options selected. Recycled calculations are taken from supplier information and industry data, as such material variables are likely to affect the figures which may result in changes to these percentages. This document is subject to change without notice.
