

## INFO SHEET

## SECURE HEALTHCARE STORAGE WITH

**INCREASED ACCOUNTABILITY WITH CONTROLOC TECHNOLOGY BY SPACESAVER**

With ControLoc™ Technology by Spacesaver®, authorized pharmacy employees can monitor and control access to narcotics and other high value drugs, prior to patient delivery. The secure storage cabinets can be positioned close to the patient pick-up counter and loaded daily with narcotics and meds from the pharmacy vault, thus improving efficiencies in the pharmacy for both the personnel and the patients. No more running back and forth from the vault to the patient pick-up counter. Pharmacies can now serve more patients.

Increased Pharmaceutical **Security**  
 Enhanced **Control** of Medication  
 Improved **Efficiencies** for Pharmacists

**STANDARD FEATURES**

- Unattended access (no keys required).
- Electro-mechanical locks accessed using PIN or Card, or both.
- Trace/track door transitions.
- 82" height.
- Modular construction, units shipped fully assembled.
- Self-closing doors, rubber door stops and flush mounted pull handle.
- 14 and 18 gauge cold rolled steel construction.
- Pre-drilled mounting holes in base and sides of locker.
- Number tags installed at the factory.

Spacesaver's Secure Healthcare Storage with ControLoc Technology is ideal for high volume pharmacies and pharmacies with patient populations that are at high-risk for dependencies.
