

# DONT SETTLE FOR **BLAND** WHEN YOU CAN **BRAND**

There are many opportunities to transform a plain office space into one that supports your identity in a bright and vibrant way. It does not require a big budget, just a little imagination and creativity!

## GREAT FIRST IMPRESSION

Try a lobby display with acrylic standoff signs or dimensional letters for an especially attractive first impression. This sets the stage for the rest of the customers experience with your company!

## BRANDED WAYFINDING

Wayfinding and ADA signs do not have to be boring! Freestanding or wall-mounted, office directories can show visitors the right direction while also incorporating your logo or corporate identity.

## INSPIRATIONAL MESSAGES

Inspire visitors and employees by displaying your core values, mission statement, founder's quotes and other messages on smooth interior walls or lobbies, hallways, conference rooms or break rooms.

## ADD CLASS TO GLASS

The windows on interior doors, offices and conference rooms all make great candidates for frosted vinyl graphics. Display your logo and extend your branding in a professional way that also creates privacy.

## CUSTOM FLOOR GRAPHICS

Heads up, your customers are looking down! Display a logo on your lobby floor, showcase selected messages or upcoming events in hallways or support a unified wayfinding strategy using directional floor messages.
