Why Belgotex Sport?

Belgotex Sport is Africa's leading sports surfaces specialist, committed to manufacturing, distributing, construction, installation and the development of innovative sports systems. Our world-class systems are designed to elevate sport, empowering South African athletes to train and compete on surfaces recognised and approved by the world's leading sporting bodies.

- Proven performance – extensively tested and certified systems
- Turnkey solution – design, construction, installation and maintenance
- Extensive project portfolio in both professional and amateur sport
- Dedicated to environmentally friendly systems
- In house expertise on installation

Alongside each world-class sport system, our specialised construction company offers a full turnkey service, providing R&D, topographical surveys, design, installation, performance testing and maintenance.

We'll even take care of your lighting, fencing, paving and other ancillary items. Plus we train your ground staff and work with them to ensure the quality and longevity of your surface.

Bergo Multi-Sport

Belgotex Sport's click system offers a high performance solution that's versatile with the ability to be reinstalled wherever else you may need it. Considering factors such as maintenance, installation, durability, environmental impact, appearance and how it may cater to various sports – the system can be installed and reinstalled in most areas with the level of friction providing stop and-go characteristics best suited for a variety of sports.

An ideal solution for special events, shows and exhibitions – especially where a surface needs to be installed and removed again – this resilient product can be used indoors or outdoors, in all weather conditions, all year round. The unique construction provides adequate bounce and underfoot friction, with the perforated pattern allowing for excellent drainage. Widely used in various tournaments in South Africa and recommended by several sports federations.

Key Benefits And Performance

Belgotex Sport's innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

- Withstands all climates and environments
- For indoor and outdoor use
- Easy to install and remove
- Requires minimal maintenance
- Correct bounce over the complete court
- Extremely durable
- Excellent drainage
- Subfloor stays ventilated
- All-weather court dries quickly after rain
- Sound absorbing characteristics
- Ideal on worn asphalt or cracked concrete

Extended Specifications

Product Name	Bergo Multi-Sport
Application	Multi-purpose indoor sports floor
Material	Polypropylene
Size	303.3mm x 303.3mm
Thickness	14.1mm
UV Warranty	15 years

Herculan

Renowned for durability, comfort, safety and performance, Belgotex Sport's indoor flooring surface Herculan provides an impressive range of high-quality sport surfaces. For all levels of play and competition, each sports hall or gym floor can benefit from a system designed to fit your budget, facility and activity needs. Our indoor sports floors are easy to maintain and can be resurfaced quickly and economically when required, meeting the stringent American testing and standards.

We offer a range of contemporary and modern colours in the design of your choice. There is also the option to use more than one colour, to match your school or club colours and give your floor a completely unique look.

Key Benefits And Performance

Belgotex Sport's innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

- Outstanding wear resistance
- Highest attainable fire class for sports floors: Bfl-S1
- Approved and certified by several (inter-)national authorities
- Low-maintenance and easy to clean
- High Comfort and Safety (diamond shaped yarns)
- Seamless

Extended Specifications

Product Name Application	Herculan MF Blue 33 Multi-purpose indoor sports floor
Material	Prefabricated foam layer and polyurethane top layer
Thickness	9mm

Extended Specifications

Product Name Application	Herculan MF 9 + 2 Multi-purpose indoor sports floor
Material	Prefabricated rubber layer and polyurethane top layer
Thickness	9mm rubber + 2mm polyurethane

Extended Specifications

Product Name Application	Herculan RH 9 + 3 Multi-purpose indoor sports floor
Material	Prefabricated foam layer, a hard-intermediate layer and a polyurethane top layer
Thickness	9mm rubber + 3mm top layer

Taraflex

Continuing to revolutionise indoor sports flooring, Belgotex Sport offers a vinly sports floor that's the market leader in innovation and performance. Taraflex is a multi-layered system comprising a unique intelligent surface treatment that reduces friction burns by as much as 25%. PVC reinforced fibreglass mesh and double density closed cell foam ensures the surface meets the needs of athletes, for all levels of play and competition. Each sports hall and gym floor system can be designed to fit your budget, facility and activity needs, is easy to maintain, and can be resurfaced quickly an economically when required.

Superior shock absorption characterises the surface, which offers comfort for all users when falling, diving or sliding on the floor. While helping to reduce long-term injury and risks, a force reduction minimizes impact on the body where the higher shock absorption lowers injury.

Key Benefits And Performance

Belgotex Sport's innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

- Technology and innovation knowledge bring optimal comfort and safety
- Suited to all levels and all sports for all users
- Wide and trendy colour range
- Optimal safety and performance
- Easy to maintain
- Maximised slide and grip
- Durable
- Reduce friction burn
