Multi-Use

— The Multi-Use System

Why Belgotex Sport?

Belgotex Sport is Africa's leading sports surfaces specialist, committed to manufacturing, distributing, construction, installation and the development of innovative sports systems. Our world-class systems are designed to elevate sport, empowering South African athletes to train and compete on surfaces recognised and approved by the world's leading sporting bodies.

- Proven performance – extensively tested and certified systems
- Turnkey solution – design, construction, installation and maintenance
- Extensive project portfolio in both professional and amateur sport
- Dedicated to environmentally friendly systems
- In house expertise on installation

Our systems can be installed and used in all climates, are extremely durable and weather resistant, and maintain long-term functionality. Offering a range of innovative products and systems that fit numerous sports facilities and budgets, the surfaces can be easily renovated or re-surfaced.

Greenfields XT 40

Multi-sports pitches are popular with schools and other educational establishments, because of the cost and space saving benefits of having just one surface for multi sports instead of needing a separate facility for each sport.

A multi-sport artificial turf pitch is a safe and practical choice. It replaces dusty, sandy or hard court pitches and prevents injuries caused by falling on a hard surface such as a traditional paved playground. As specialists in sports surfaces, Belgotex Sport is able to design and install high quality artificial turf that is suitable for a variety of sports to be played on.

The fibrillated tape fibres used for this system hold the infill in place and provide industry-leading durability.

Multi-Oval

Multi-sports pitches are popular with schools and other educational establishments, because of the cost and space saving benefits of having just one surface for multi sports instead of needing a separate facility for each sport.

A multi-sport artificial turf pitch is a safe and practical choice. It replaces dusty, sandy or hard court pitches and prevents injuries caused by falling on a hard surface such as a traditional paved playground. As specialists in sports surfaces, Belgotex Sport is able to design and install high quality artificial turf that is suitable for a variety of sports to be played on.

The fibrillated tape fibres used for this system hold the infill in place and provide industry-leading durability.

Key Benefits And Performance

Belgotex Sport's innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

- Infill splash reduced due to high pile density
- High usage possible from strength of yarn combination
- Minimal maintenance requirements

Extended Specifications

Product	Greenfields XT 40
Application	Five-a-side football
Fibre	100% polyethylene straight fibrillated yarn
Infill	15kgs silica sand per sqm + 7kgs rubber per sqm
Guarantee	15 years
UV Warranty	7 years
Primary Cloth	Double polypropylene with fibre glass rotary weave

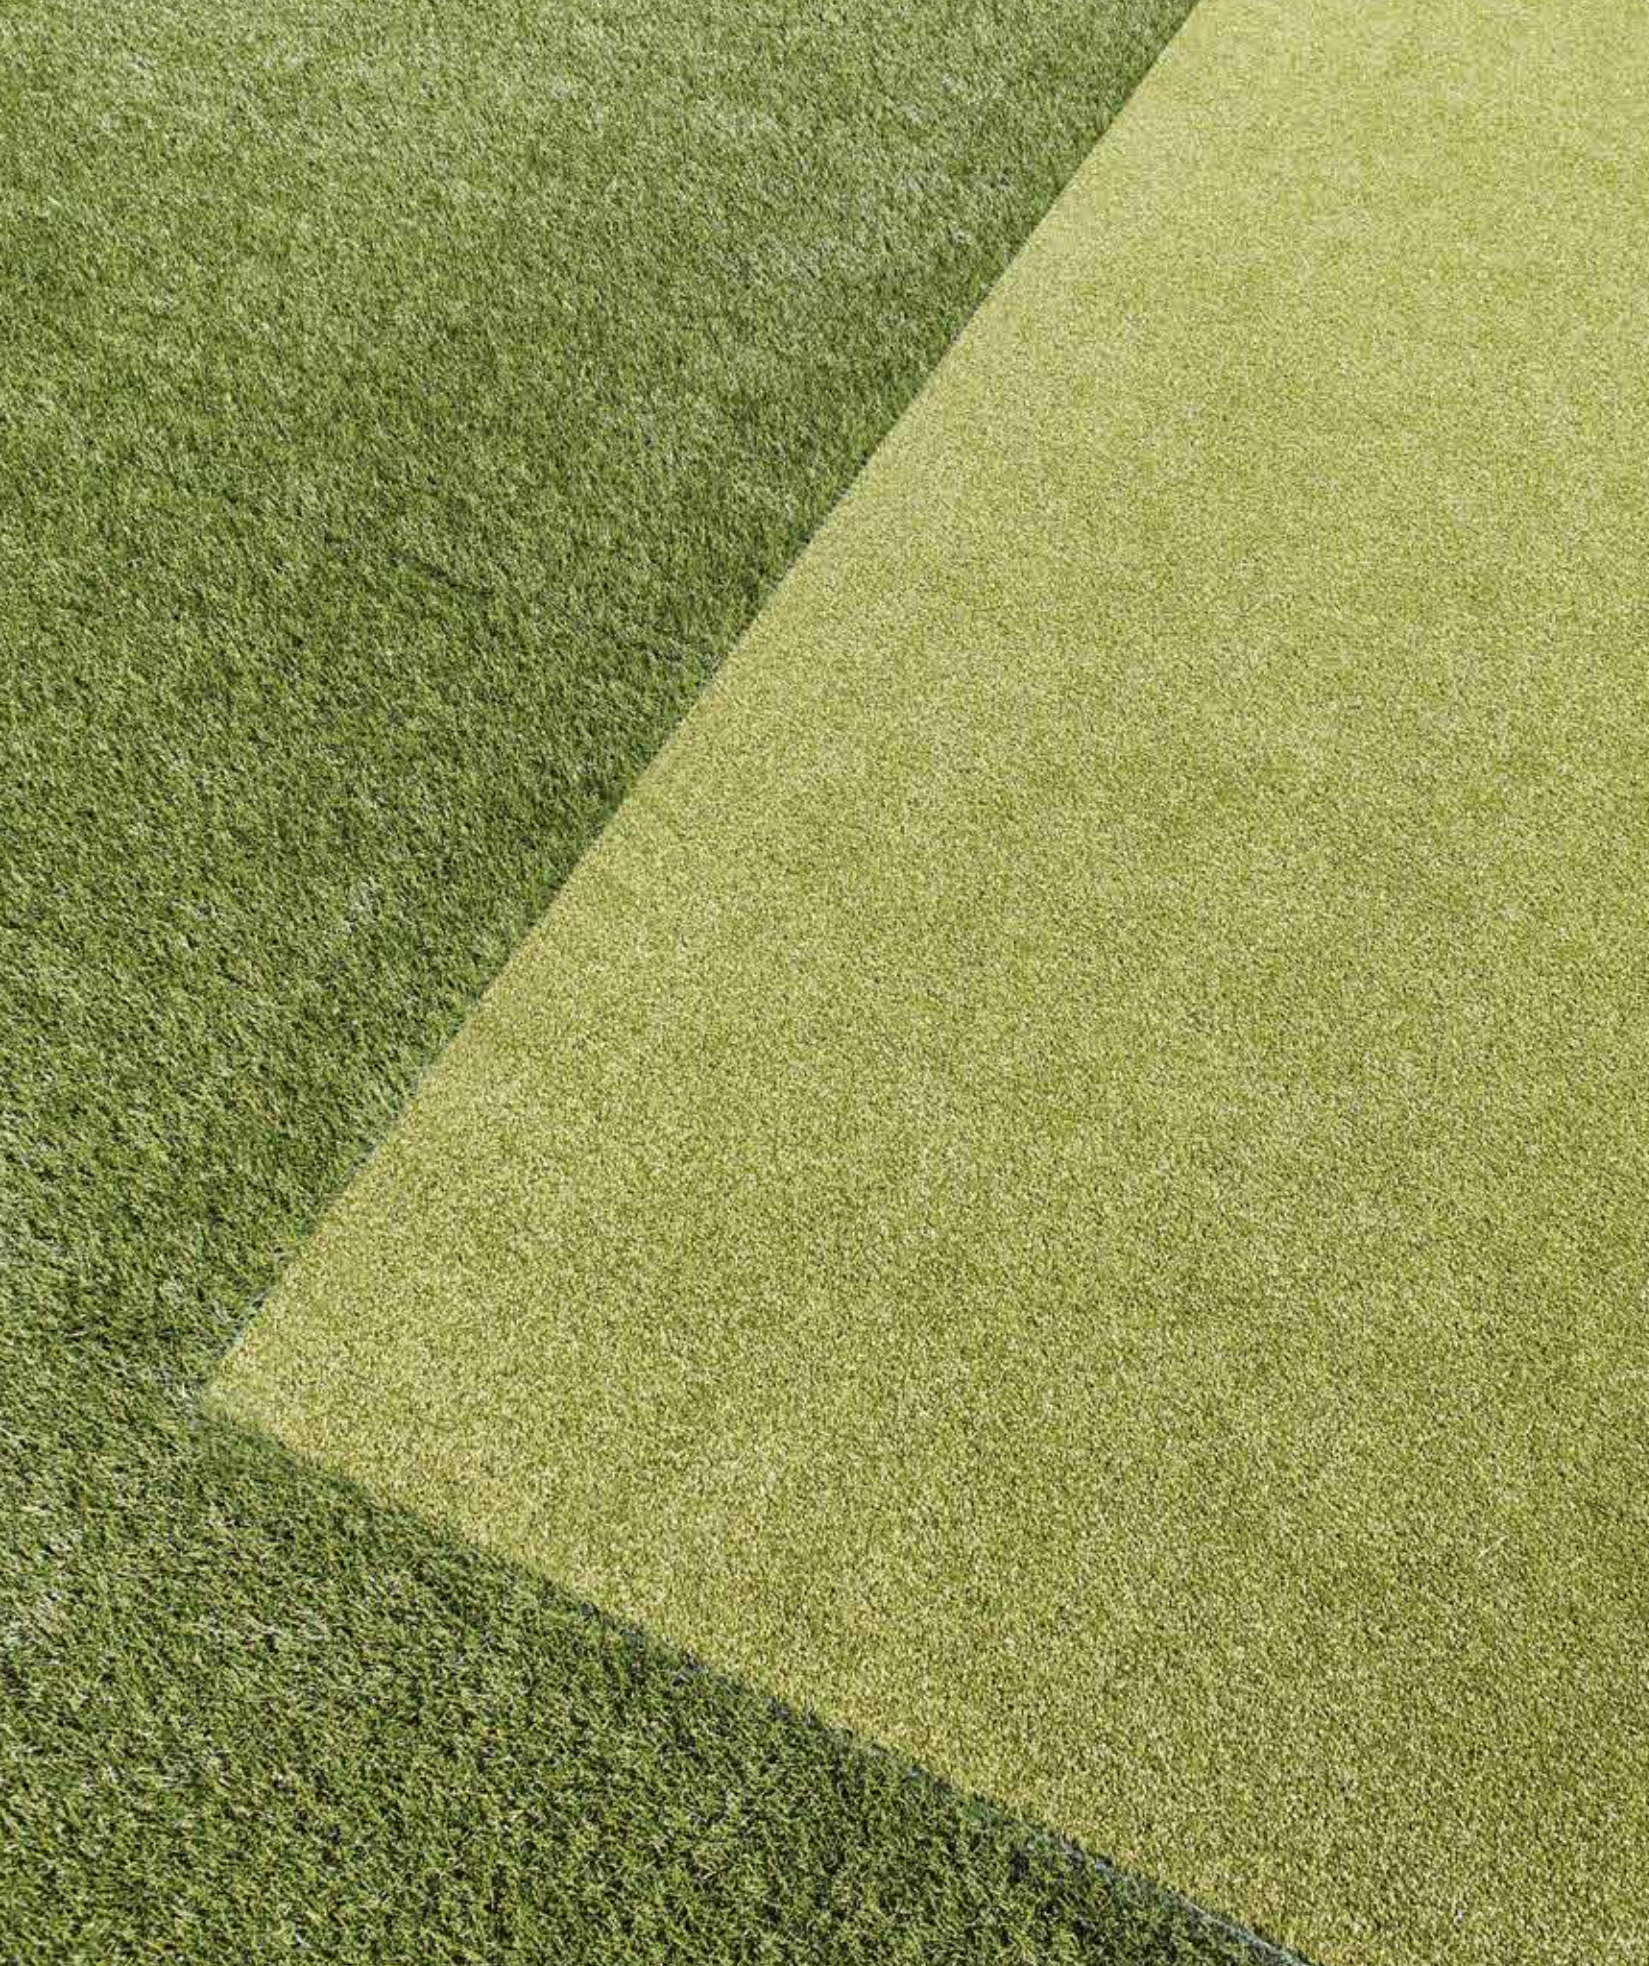

Key Benefits And Performance

Belgotex Sport's innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

- Infill splash reduced due to micro curl yarn
- High usage possible from strength of yarn
- Proven product excellence in South Africa
- Minimal maintenance requirements

Extended Specifications

Product	Multi-Oval
Application	Multi-Use
Fibre	100% polyethylene micro-curled fibrillated yarn
Infill	6kgs silica sand per sqm
Guarantee	5 years
UV Warranty	7 years
Primary Cloth	Double polypropylene with fibre glass rotary weave
