# Why Belgotex Sport?

Belgotex Sport is Africa's leading sports surfaces specialist, committed to the manufacture, distribution, construction, installation and the development of innovative sports systems. Our world-class systems are designed to elevate sport, empowering South African athletes to train and compete on surfaces recognised and approved by the world's leading sporting bodies.

- Proven performance – extensively tested and certified systems
- Turnkey solution – design, construction, manufacture, installation and maintenance
- Extensive project portfolio in both professional and amateur sport
- Dedicated to environmentally friendly systems
- In house expertise on installation

We have much experience in the design and construction of professional water and sand dressed artificial hockey pitches.

We are proud to be able to install these in line with the strict standards set by the International Hockey Federation.

## FIH Approved

Offering professional grade playing surfaces that meet global standards allows for training and community activities as well as hosting major competitions like The Olympic Games and the Hockey World Cup.

- Number of local pitches installed: 190
- Number of international pitches installed: 255

# Greenfields TX Elite

## Ultimate Water-Based Hockey System for Professional Play

Developed in collaboration with top hockey players, Belgotex Sport’s new GreenFields TX Elite offers the ultimate solution for professional play at the highest level. The most densely tufted product in the industry, this water-based system provides a smooth playing surface combined with high speed, precision and control.

Short and wide texturized monofilament fibres create a multi-directional pitch, while a proprietary multi-layer backing improves water retention – resulting in a consistently high-speed game.

Classified by the FIH as the global standard for major international tournaments, Belgotex Sport supplies and installs the turf for premier level matches that allow for hockey of the highest performance.

## Key Benefits And Performance

Belgotex Sport’s innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

- High speed play (1.5 million fibres per m<sup>2</sup>)
- Reduced water usage (multilayer backing)
- Stabilised surface (trio layer backing)
- Excellent foot grip (dense tuft)
- Total ball control
- Consistent quality foot grip (torsion)
- International competition approved

## Extended Specifications

Product Name	Greenfields TX Elite
Application	Water-Based Hockey Surface
Fibre	100% Polyethylene Texturised Monofilament
Infill	N/A
UV Warranty	8 Years
Primary Cloth	Double Polypropylene with a Fibre Glass Rotary Weave
Tertiary Cloth	Woven Glass Polyester

# Greenfields TX Pro

## Superior Water-Based Hockey System for High Speed Play

Developed for fast, dynamic hockey, Greenfields TX Pro has been tested extensively by clubs playing at the highest level. The premium-quality market standard boasts a wide, textured fibre that creates a dense, even surface. The high tuft density provides excellent water distribution and equal ball roll in all directions.

A FIH Global certified professional hockey product, Greenfields TX Pro is suitable for multiple levels of the game, from competitive amateur leagues to professional tournaments.

## Key Benefits And Performance

Belgotex Sport’s innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

- High speed (water-based surface)
- Stable surface (excellent fibre distribution)
- Excellent floor grip (dense tuft)
- Equal ball roll in all directions
- International competition approved

## Extended Specifications

Product Name	Greenfields TX Pro
Application	Water-Based Hockey Surface
Fibre	100% Polyethylene Texturised Monofilament
Infill	N/A
UV Warranty	8 Years
Primary Cloth	Double Polypropylene with a Fibre Glass Rotary Weave
Tertiary Cloth	Woven PP Scrim

# Greenfields TX Pro Plus

## Optimum Water-Based Hockey System for Professional Play

Belgotex Sport’s TX Pro Plus offers the same quality in terms of stability as the TX Pro, with the added performance of TX Elite ball control and grip via the high fibre density. This water-based product ensures high speed play and an equal ball roll in all directions.

An FIH Global certified professional hockey product, Greenfields TX Pro Plus is the ideal solution for professional hockey clubs and international tournaments, offering players extremely fast play.

## Key Benefits And Performance

Belgotex Sport’s innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

- High speed play (1.5 million fibres per m<sup>2</sup>)
- High water retention (high-density fibres)
- Excellent ball play (ultra-smooth surface)
- Total ball control
- Consistent quality foot grip (torsion)
- International competition approved

## Extended Specifications

Product Name	Greenfields TX Pro Plus
Application	Water-Based Hockey Surface
Fibre	100% Polyethylene Texturised Monofilament
Infill	N/A
UV Warranty	8 Years
Primary Cloth	Multi-Layer Wrap Knitted Polypropylene
Tertiary Cloth	N/A

# Greenfields MC Pro

## Reliable Entry Level Water-Based Hockey Field

A value-for-money product available at an attractive up-front cost, GreenFields MC Pro has been developed to deliver consistent ball behaviour and good ball speed.

The MicroCurl tape fibre technology delivers a smooth playing surface that retains water efficiently. The densely tufted carpet creates the ideal playing conditions – fast ball speed, reliable ball movement and good in-motion footing – and is good for skill development.

The system is FIH-certified and will deliver consistent performance for years.

## Key Benefits And Performance

Belgotex Sport’s innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

- Consistent ball behaviour across the entire surface
- Good water retention (MicroCurl tape fibres)
- An ideal playing surface for skills development
- Cost effective
- Resilient
- International competition approved

## Extended Specifications

Product Name	Greenfields MC Pro
Application	Water-Based Hockey Surface
Fibre	100% Polyethylene Micro-Curled Fibrillated Yarn
Infill	N/A
UV Warranty	7 Years
Primary Cloth	Double Polypropylene with a Fibre Glass Rotary Weave
Tertiary Cloth	N/A

# Greenfields TX SW

## Sand-Dressed Hockey Surface for Ultimate Ball Control

Developed as an optimum surface for players to improve their technical skills on, GreenFields TX SW provides a stable pitch for total control.

The advanced monofilament fibre technology gives an improved tuft bind for long lasting performance. Combined with elite air texturized fibres to create a high bulk, the result is a smooth field with equal ball roll in all directions.

GreenFields TX SW is partially filled with sand to ensure pile height remains vertical. Ideal for amateur clubs that wish to improve their performance, as well as for professional training fields, water can be added for faster play and increased comfort and safety. In a dry state, it's possible for other sports to be played on the pitch, too.

# Greenfields MC SW

## Durable and Reliable, Wet or Dry, with Outstanding Pitch Stability

The GreenFields MC SW field system's highly durable tape yarns and innovative MicroCurl fibrillated tape fibre technology offers a superior playing surface with an extremely long life.

Furthermore, the sand dressed pitch stability is excellent and the system is FIH certified to the national level, providing consistent ball behaviour that is ideal for entry level and developing hockey players.

Allowing great everyday performance without water, the system can be irrigated for matches and higher skilled players to enjoy faster ball speeds.

## Key Benefits And Performance

Belgotex Sport's innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

- Excellent foot grip (tight tuft bind)
- Stable sand dressed surface
- Total control for technique development
- High durability (TX monofilament fibre)
- Ultimate surface for high speed play
- Consistent playing characteristics

## Extended Specifications

Product Name	Greenfields TX SW
Application	Sand-Dressed Hockey Surface
Fibre	100% Polyethylene Texturised Monofilament
Infill	12.5kg Silica Sand per SQM
UV Warranty	8 Years
Primary Cloth	Double Polypropylene with a Fibre Glass Rotary Weave
Tertiary Cloth	N/A

## Key Benefits And Performance

Belgotex Sport's innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

- Cost-effective
- Resilient
- All year use
- Consistent ball behaviour
- Excellent skills development
- Excellent pitch stability and durability
- Suitable for wet or dry use

## Extended Specifications

Product Name	Greenfields MC SW
Application	Sand-Dressed Hockey Surface
Fibre	100% Polyethylene Micro-Curled Fibrillated Yarn
Infill	12.5kg Silica Sand per SQM
UV Warranty	7 Years
Primary Cloth	Double Polypropylene with a Fibre-Locked Fleece
Tertiary Cloth	N/A
