

List of public-facing veterans' organizations and programs in Canada

The following is a list of public-facing Veteran focused organizations/programs in Canada compiled by the CPCoE. These may be helpful contacts for the purposes of research (e.g., in identifying potential Veterans Partners living with chronic pain who may accept to engage in a research project).

NOTE: All information on this list is already in the public domain. Inclusion on this list does not reflect an endorsement of the organization/program, or any relationship of the organization/program with the CPCoE. It is the responsibility of Principal Applicants to secure Veteran Partners in research. There is no guarantee that contacting these organizations/programs will result in securing a Veteran Partner. Use of this list does not impact a Principal Applicant's opportunity to receive research funding from the CPCoE.

If you have any questions, please contact research@vcp-vdc.ca.
