Dear Colleagues,

First of all, we would like to sincerely apologize for not informing you about some changes in our timeline under the action plan for the ASEANSAI SP development.

Due to several internal procedures, we have to change the date of organizing the SPC meeting in this regard, which is expected to organize in the Middle of May 2021.

Currently, based on the responses of all ASEANSAI members to the recent survey questionnaire, the SAV has produced a consolidated report on needs assessment and SWOT analysis which is strongly believed a valuable material supplying inputs for the next steps – drafting the new SP.

A new point in this report compared with the previous ones, is that the SAV would like to provide other members with our opinions in the form of some simple recommendations we made through our scrutiny over the valuable opinions and ideas of the member SAIs and our own analysis.

We are looking forward to seeking your comments and ideas contributed to the report (enclosed herewith) by 30 April 2021 so that we can proceed with the next steps.

Your kind understanding and cooperation would be highly appreciated.

Dear Colleagues,

I hope you are all well. It was a while since we last had contact and I wanted to reach out to you to follow up on how the process of developing the ASEANSAI Strategic Plan is going and also on the activities where you would like participation and support from us. According to the action plan there is a meeting planned for April 23 but we have not yet hear anything about this, are you still planning to have the meeting this Friday? I understand from my meeting with the ASEANSAI Secretariat a while ago that there might be some delays and challenges due to the pandemic, which is very understandable. However, if you have an updated action plan or any other updates about the continuing process that you could share, it would be much appreciated as it will help us plan and prepare our participation.

Thank you and best regards,

Anna
