Motion graphics

If you're too shy to be in front of the camera or don't have the footage to get your message across, motion graphics is the perfect alternative to video. Dockyard is proud of its digital media team possessing over 10 years of digital media production experience. Adding motion graphics to your marketing will bring you to the next level of professionalism and will make you stand out over all the other businesses in the Atlantic Provinces.

Portfolio

Branding

Dockyard is all about working with small businesses in New Brunswick and Atlantic Canada to create a comprehensive brand that fits the client's specific vision without compromising their brand's goal of being recognizable to their market and keeping a professional look that can inspire their target demographic to take their business seriously.

Logos

Print

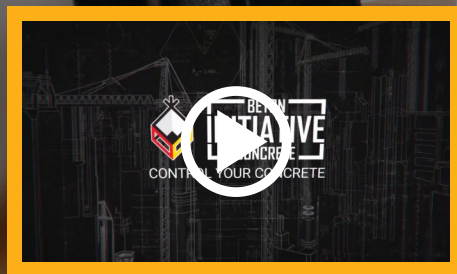

As much as Dockyard has very much focused on the digital aspect of marketing, we are fully aware that traditional print media is not leaving any time soon. We give the freedom to our clients to choose if they'd prefer handling the printing our designs or if they would like us to help them find the best place to print their product.
