TARGETED UNIVERSALISM TOOL⁰²

Part 0 INTRODUCTION

What: [Targeted Universalism](#) is an approach to equity work that recognizes groups of people who have differing needs and require specific supports to reach the same goal

Why: The purpose of this summative tool is to set goals, identify needs, and create plans for student groups unique to your setting- classroom, school, program, or event.

Who: This tool has multiple users: teachers, school teams, school leaders, community-based organizations, etc.

When: The Targeted Universalism Tool supports school planning at multiple levels. Teachers can use the tool to plan for instructional strategies for small groups. Content teams can use the tool to design curriculum and plan for use of instructional time. School leaders can use the tool to design and advocate for programs needed to accelerate learning.

Pre-work: Brainstorm

What is essential for everyone to know?

What does student success look like?

[Review School Reports](#)

What are essential areas of critical need?

What does the student experience look like at your school?

Part 1 GOAL SETTING + PURPOSE STATEMENT

SET AN UNIVERSAL GOAL

WHY IS THIS GOAL IMPORTANT?

I want to achieve this goal by

_____ (date)

Aim for an ambitious goal knowing that student needs vary, and student groups farthest from the goal may need more access, intervention, or opportunity.

- Review student data
- Select the same goal for all students to meet (vision portal goals).

Set a purpose for your work:

- Think of outcomes & possibilities when all students achieve the goal.
- Write a 1-2 sentence statement
- Share, validate, & refine with school community (cps.edu/equity/Documents/equity-tools.pdf).

Part 2 MEASURE OVERALL POPULATION

_____ average of student population meeting the goal.
This average represents the current state of all student groups.

Part 3 YOUTH STATUS AT A GLANCE

Because the goal is the same, student group(s) can be organized by any student characteristics: student groups by race, gender, learning styles, generation (newcomer, 1st generation, etc.), newly enrolled, and youth with signs of trauma. Student groups could also be determined by their connection to services such as students with Individual Education Plans (IEPs), English Language Learning, Speech & Language Learning, Functional Behavior Plans, etc.

- List student groups.
- Calculate the average of the student groups.
- Record the calculated averages in the baseline boxes.
- Record the universal goal for each student group.

Part 4 BUILD UNDERSTANDING OF GROUPS

To develop targeted strategies to support the achievement of student groups, leaders need to identify and change structures and other factors prohibiting student groups' process towards the goal. Listening to students and caregivers of each group builds understanding of the student experience. Duplicate this page to plan for each student group.

STUDENT GROUP __ **STUDENT GROUP __** **STUDENT GROUP __**

	Baseline	Goal	Baseline	Goal	Baseline	Goal
--	----------	------	----------	------	----------	------

<p>Reflect How do you think this group describes their experience in school? How do you know?</p>			
<p>Listen What do their caregivers say they need to achieve the goal? Refer to SIP.</p>			
<p>Consult students. What do students need? What ideas do they have? Refer to SIP.</p>			
<p>Collaborate / Empower. What targeted strategies might work?</p>
