Experts at Vendor Risk Management Services

"Our information security is only as strong as our weakest vendor"
- CTO of large residential mortgage lender

Services

- ▶ **Information Security Risk Reviews**
- ▶ **Constant Daily Cyber Risk Monitoring**
- ▶ **Daily Vendor Financial and Business Health Monitoring**
- ▶ **Financial and Business Risk Evaluation**

About Us

The team at **Venture Lynk Capital and Advisory** continues to be assembled based on the premise that subject matter experts and former industry leaders can be utilized by our clients in the most optimal and cost-effective manner to achieve the client's business objectives.

Our objective is to leverage our experience, skill sets, and tenacity to create meaningful and valuable client relationships in addition to successful and goal positive transactions.

The Challenge

- Service providers are vulnerable to service execution delays or complete disruption due to the actions/policies of their vendors.
- Remote workers using personal computers increase risk/exposure

**"Data Risk in the Third-Party Ecosystem", Ponemon Institute, 2018.*

63%

of breaches originate from
hacked 3rd parties*

The Solution

- Constantly monitor vendor information and cyber security to reduce data breach and supply chain risk
- Create capacity and utilize Venture Lynk as mission control for your vendor risk management and monitoring

Vendor Risk Management Services

▶ Information Security Risk Reviews

- Identify vulnerabilities in vendor Info Sec policies for a data breach or impact to supply chain delivery
- Remediation and policy change recommendations

▶ Constant Daily Cyber Risk Monitoring

- Monitor and ping each vendor's public and remote staff IP addresses
- Use Open FAIR model to identify cyber risk exposure in financial terms
- Recommendations on how vendor to remediate and then verify cure

▶ Financial and Business Vendor Risk Monitoring

- Daily financial, business, and market risk monitoring
- Scores related to client's financial stack, business model, executive team movements, payment history, public records

▶ Financial and Business Risk Reviews

- Quarterly or semi-annual review of vendor financials
- Suggest financial, business, and market risk evaluation questions to ask vendor

▶ Benefits of Monitoring Your Vendors

- Early warning system to detect Information Security, Cyber Security, business, and financial risks so proactive steps can be executed to mitigate and protect your supply chain
- Mitigate or eliminate disruptions to supply chain and revenue
- Internal capacity creation for vendor risk management and IT teams by using a vendor risk management specialist
- Easier preparation for and higher performance in agency or regulatory audits
- Establishing a proactive posture towards vendors to ensure ongoing compliance with regulations and your proprietary standards
