

OUR VISION. YOUR FUTURE.

Supply Chain Manager (w/m/d) EN

WE ARE ART OF AEROSPACE

SACS Aerospace develops new perspectives. Creativity is the impetus for innovation, evolution and passion. Creativity makes ourselves heard and gives us the freedom to think different, to think further. We encourage creativity.

WE ARE SACS AEROSPACE

Worldwide, there is one aircraft taking off every second and SACS (Solid Aerospace Connecting Systems) as a future-oriented production and development company has its seat in the First Class.

With a baggage of experience, know-how, and a great deal of creativity, our first-rate team goes aboard to face all challenges or even turbulences. These experts in the fields of aerostructure, interiors and standard hardware deal with innovative solutions for the aviation industry every day, from single components all the way through to system assemblies. State-of-the-art production technologies and efficient supply chain management enable us to reach precision at the highest stage.

WE ARE ONE

We stand for SACS Aerospace. We make history together. Get on board and take a seat in our First Class!

We offer you a springboard to take off straight into the booming aerospace industry. The international environment provides an exciting workplace and scope of action for your personal and professional development.

BE A PART OF US

To extend our team, we are looking for a Supply Chain Manager at the earliest possible date

These will be your tasks:

- Perform all sales and purchase processes in line with our company's defined goals regarding quality, prices, and lead times.
- Act as Single Point of Contact for one or several customers/supplier groups
- Monitor supplier performances
- Establish/obtain, follow up and evaluate all offers and orders
- Update items and data in our enterprise resource planning system ERP
- Negotiate prices and establish master agreements with customers and suppliers
- Process all orders of customers and suppliers in our ERP
- Verify and release invoices including dunning processes

Your qualifications:

- Degree in Business Administration or long-standing relevant experience (Aerospace industry, chemicals, raw materials)
- Professional experience in the field of purchasing and distribution is a plus factor
- Broad knowledge in the field of procurement, correspondence, negotiating, ordering, invoicing and handling of queries
- You show a keen commercial awareness
- Your work is structured, accurate, and self-motivated
- You like to work independently and you have good communication skills
- You are a flexible and responsible team player
- You show proficiency in MS Office
- Your solid knowledge of German and English completes your profile

Would you like to create the future with us?
