# BACKEND DEVELOPER

## Who are we?

Elaut nv brings fun for players in amusement parks worldwide!
We invent, create and produce electromechanical amusement games (think grab cranes, coin pushers…), always looking for what the player likes. Our people live by our motto:

## TOP QUALITY ENTERTAINING THE WORLD!

For 60 years, Elaut has grown into a successful SME with 180 colleagues in offices in Europe and the US and hundreds of customers worldwide.
The head office and your future workplace is in Sint-Niklaas.

## GENERAL JOB DESCRIPTION

We're currently looking for a Cloud Native developer with a proven track record. In this role you'll be joining our maintenance and development team, working on our game platform using cutting edge Amazon Web Services technology such as AWS Lambda, IoT Core, Kinesis Video Streams, Step Functions, Aurora, DynamoDB, …

## REQUIREMENTS

- You have experience working in creating AWS solutions
  - Experience with TypeScript
  - Experience with Infrastructure as Code
  - Experience with AWS Lambda
  - Experience with configuring Jenkins Pipelines is a plus.
  - Experience with configuring IoT solutions is a plus.
- You have experience with backend services and API's to understand the requirements and peculiarities of the systems you are integrating with.
- You master backend architecture principles and design patterns.
- You are well aware of the peculiarities of creating a multi tenant and global solution
- Unit testing or test driven development are an obvious part of the development process for you.
- You know how to set up an automated development process.
- You have experience in working in an agile team and know how to apply agile methodologies.

## YOU ARE …

- Passionate about the newest evolutions & media.
- Good at communicating and dealing with other people.
- Open for new or different ideas and insights.

# WHAT'S IN IT FOR YOU?

- You'll be part of a young and eager team.

- You'll be able to grow and learn through teamwork, (certification) courses, conferences and ultimately become a code guru/ninja/pirate (pick one or more).

- You'll be based in our offices in Sint-Niklaas.
