

Bag Filters

X-100 BAG FILTER

X-100 Bag Filter is a versatile filter manufactured from heavy duty polypropylene with a UV inhibitor for all weather operation and durability. Multiple filters can be installed in parallel to handle higher flow rates. Available with pedestal mounting feet, conical base or bracket mounts.

- Twist-off lid design requires no tools for opening and closing vessel to provide quick and easy element change-out.
- 100 PSI rating at 110° F water service for improved versatility.
- Bag filter elements available from 1μ – 800μ porosity, felt or polypropylene mesh.

Mode No.	Filter	Bag Dimensions (in.)	Housing Dimensions (in.)	Max Flow Rate	Inlet / Outlet (in.)
X-100	Bag Filter	6" x 22"	10.5" x 29"	70 gpm	2" in / out

TRIMLINE BAG FILTER (TBF)

Trimline Bag Filters (TBF) are designed to be used as a pre-filter for heavy particulate, or as a stand alone filtering system. The Trimline Bag Filter bags feature a convenient lift-out handle for quick removal. The screw on lid nut is designed for easy access to the filter bag for cleaning and general maintenance.

- 2" PVC socket connections.
- 100% polyester fabric bag element.
- Pressure gauge and air relief valve standard with each unit.
- Special screw on lid nut for easy access to the filter bag element.
- Bags must be ordered separately
