Khan Academy Kids starts at the basics of letters, numbers, and social emotional learning and goes through the first grade standards in math, reading, writing and social emotional learning.</p>  <p data-bbox="561 961 1382 1472">For students with stronger literacy and motor skills: Khan Academy Kindergarten, 1st grade and 2nd grade math can be appropriate. Ideally a parent or older sibling sits next to them while doing this. One practice that we've seen teachers use to great effect is to have all students start on Kindergarten and then move to 1st grade, 2nd grade, etc. This helps ensure that older students are filling in any knowledge gaps that may have accumulated. It also helps build momentum and confidence.</p> <p data-bbox="561 1543 1341 1738">On Khan Academy, course challenges and unit tests can be used to accelerate through material. For students with minimal gaps, they should be able to get through a previous year's content in 1-3 hours.</p>
