---

## COMMUNITY INSIGHTS

14% Poverty Rate

3.6% Unemployment Rate

## COMPANY OVERVIEW

3DR Labs delivers technology to produce three-dimensional medical images of CT scans and MRIs at rapid speed to doctors and hospitals across the country, with plans soon to accept cases from around the world and open a second location in Kentucky.

## NEED

The company lacked the money to buy necessary equipment and hire and train new employees.

## RESULT

An investment in connection with the New Markets Tax Credit (NMTC) program fueled rapid growth, providing working capital to finance new equipment and train new employees.

## INVESTMENT SIZE:

\$7.2 Million
