SMART®

THE HUB OF A
collaborative CLASSROOM

SMART Board interactive displays let you leverage investments in classroom technology and infrastructure, bringing together devices, tools and content so teachers use them more effectively.
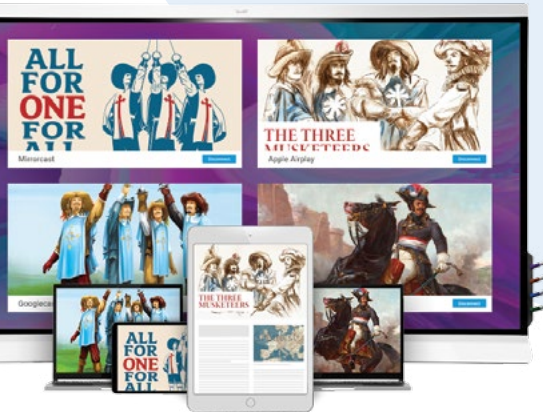

Engage students everywhere

Connect student devices for meaningful active learning and student contribution. Share whiteboards and lessons to students' devices, so they can take control of their learning in and out of the classroom.

Experience better video conferencing

SMART displays work with UVC webcams, Zoom, Google Meet™, Microsoft Teams™ and more. Deliver lessons while sharing screens in these applications, and enhance them with digital ink and tools to focus students' attention.

Get the SMART Board experience on connected devices

Enjoy the full SMART Board experience with any connected Windows® or Mac® computer, including 20 points of touch and digital ink across web browsers, files and applications. Plus, enjoy superior interactivity with Chrome OS™.

SMART Chromebox*

Enhance learning with a cost-effective device that seamlessly integrates the SMART Board with the Google Play Store, apps and lessons — no computer needed.
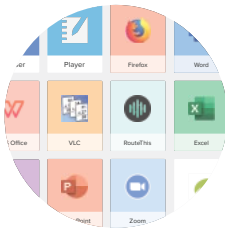

*Select regional availability

SMART.

ENGINEERED FOR THE

simplicity TEACHERS WANT

Get up and running quickly with superior touch, inking and personalization features, and enjoy industry-leading integration with the operating systems teachers already know and use.

Interact effortlessly

SMART displays with iQ allow multiple learners to write, erase, gesture and use tools at once, with 20 points of simultaneous touch and interaction. No need for tool selection or mode switching.

Ink anywhere, on any file type

SMART Ink desktop software puts annotations where you want them. Write into PDFs and Microsoft Office® files and save your notes. Move, copy/paste and erase notes without needing to change pens, toggle tool settings or use an overlay or special ink mode.
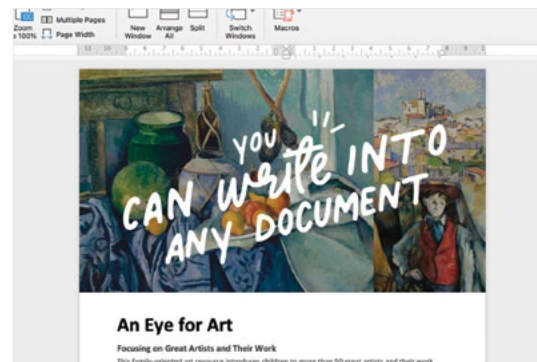

Sign in anywhere

Sign in to any SMART display with iQ* in any room to access your cloud storage and lessons.

*Requires OTA update to iQ 3.7 or higher

Approach and use

Your SMART Board 6000S is ready to use whenever you are. With proximity sensors and quick power-on, you can pick up a pen and go.

SMART

INTERACTIVE SOFTWARE, TOOLS AND content INCLUDED

Your SMART display arrives with an always-growing set of teaching tools, lesson creation software, ready-made activities and more – no subscription required.

Bridge physical tools and digital learning

SMART Board 6000S series includes the unique Tool Explorer platform, which integrates real-world tools and manipulatives with digital learning. Tools sold seperately.

No computer needed

Use built-in Android computing to browse the web, use the whiteboard, access apps, screenshare and more, without using a connected device.
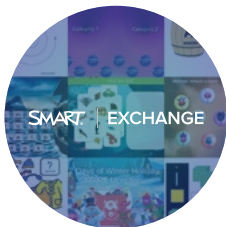

Access a massive free content library

Find ready-made lessons, activities and games created by teachers, for teachers with SMART Exchange. Searchable by subject, grade and education standards.

Use free interactive software

With built-in Android and free, powerful lesson creation software including SMART Notebook basic version, your SMART Board enables dynamic learning from the moment it arrives.

Divide the cake into different fractions
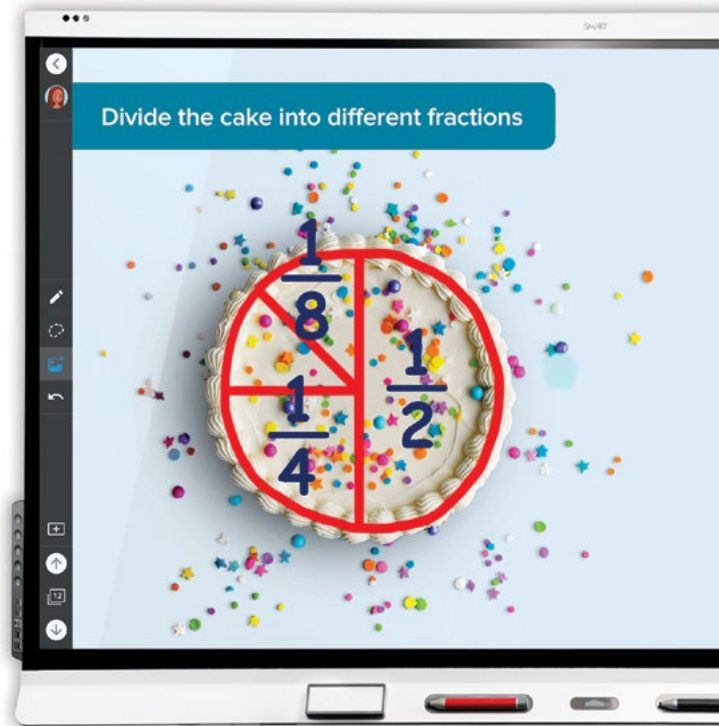

Customize with SMART accessories

Connect your classroom with accessories including SMART Remote Management software, SMART Document Camera, mobile and wall stands, OPS PC modules and more.

SMART

READY TO

transform™ YOUR
CLASSROOM?

SMART Board interactive displays are easy to deploy, use and support. SMART has the experience, knowledge and resources to support a fast, effective technology implementation, reducing training costs and support calls, adding up to a lower total cost of ownership.

Find the SMART Board interactive display that fits your needs. Book a demo or talk to a SMART representative.
