

## NROC is Changing the Way College and Career Readiness is Approached and Supported

NROC partners with educators to create open and low-cost courses and tools that are designed to recognize every student's unique learning needs and preferences.

These resources can be adapted and scaled to meet programmatic goals in a variety of instructional settings.

### Why?

Almost half of today's high school graduates are unprepared for postsecondary studies. Of those, fewer than one quarter will successfully complete college.

NROC members are rewriting this narrative.
