Enrollment Report: Current Study Path Status

Current Study Path Status: indicates the student’s current status towards completing testing activities in this study path. The possible values you’ll see are:

- **ID Not Started** or --: indicates that the student has not yet started the initial diagnostic assessment
- **ID In Progress**: the student has started but not yet completed the initial diagnostic
- **ID Completed**: the student has completed the initial diagnostic, but not yet done any other testing activities in their study path
- **Other Test In Progress**: the student is currently in the middle of a Unit- or Topic-level test in their study path
- **Other Test Completed**: that the last testing activity this student completed was a Unit- or Topic-level test in the study path
QUESTIONS?
Class/ Cohort Reports
EdReady’s reports give you access to see a lot about student progress:

- Starting score (diagnostic) & current score  
- How much time logged in (& last login)  
- How much time in Learn resources  
- Status for every Unit, Topic, and Learning Objective  
- Number of Tests completed

Are student scores improving? 
How are they spending their time? 
Testing frequently?
Student Data Summary Report

Key Cohort Activity Details

Goal: identify students that need a closer look. Some possible reasons:
● struggling to learn the material
● don’t understand how to study or use EdReady
● focused on score improvement or being ‘done’ vs learning

Time Spent Studying
● Most of the work students will do in EdReady will be in the Learn resources:
  ○ Any student who is actively trying to learn the material on their study path should be
    spending time in the Learn resources.
● EdReady tracks the Time Spent Studying (time in the Learn resources) separately
● If a student is spending a lot of time in EdReady, but not studying, you will want to look into
  their activity in more detail.

Can see an individual student’s activity, with a focus on:

- Frequency & timing of Test activities

Expect to see testing spread across different dates vs students attempting to quickly improve their score.
Student Individual Detailed Reports

Can see an individual student’s activity, with a focus on:

- Number of Tests side-by-side with study time for a topic

1-2 Tests: very common & student likely is using program effectively (especially if you see study time)
3+ Tests: student may be struggling or just trying to ‘game’ the system
Student Tests Taken

- See a student’s complete test history, including:
  - time test completed
  - status earned
  - resulting study path score

- Review individual questions (& student/ correct responses)
Provides a streamlined look at a single student’s progress allowing you to see progress details across all their scopes/ goals.

QUESTIONS?
Using EdReady Reports to Inform Instruction and Provide Student Guidance
Mastery Levels

You can see the current status of all Units for your students on-screen in the Unit Detail.

This can be helpful in determining the areas you may want to focus on for additional (group/ small group) instruction.
Mastery Levels

You can see the current status of all Topics within a unit for your students on-screen in the **Topic Detail** reports.

This can be helpful in determining the areas you may want to focus on for additional (group/ small group) instruction.
This report can be a useful way to see how far a student has progressed towards learning the concepts on their study path.

It allows a view into historical progress:
- Overall
- In the last calendar week (midnight Sunday through 11:59pm Saturday, GMT)

**Accessing this report:**
1. Start on Reports Dashboard
2. Click on **Reports** link for the Study Path of interest: the Overview report will open by default
3. Click on the **Advanced and Custom Reports** link (under the Summary section)
4. Select **Student data: topic and learning objective progress** from the dropdown menu and click the **Download Report** button to have the report emailed to you

Guide Student Pacing

Students can work at any speed, but may need guidance from their instructor to ensure they are progressing each week and are on pace to complete the program over the summer.

**Material to study:**
- Help students determine the subjects they need to work on each week to keep on track
- Focus on topic mastery over score increase: when students focus on their score, they tend to spend most of their energy testing themselves, instead of learning the material.

**Score:**
- Is there a deadline for when students need to reach their target score?
- Does student score or score progress factor into their grade?
