EdReady. Set. Go!

EdReady is a math and English readiness system that employs a knowledge inventory to personalize a learner’s path to subject mastery within the context of a specific educational goal.

STUDENTS can self-assess for college readiness, view study options, and follow a personalized study path to fill gaps in knowledge.

EDUCATORS can see useful data to guide students to success, improve retention, and lay a solid foundation for college completion.

INSTITUTIONS can customize EdReady. Here’s how it works...

Goals
Each EdReady goal can support a unique, student-focused readiness experience. EdReady can accommodate a variety of goals, depending on your needs.

Scope
You can tailor study paths and embedded diagnostics to support programmatic needs within a customized scope of expectations.

Resources
A personalized study path with topic-specific, media-rich learning resources will guide your students toward their goals. You can choose which curated resources your students will see.

Data Access
You can set permissions for live student data dashboards and downloads for teachers, administrators, and counselors.

Readiness
As students meet or exceed their target scores, you can direct them toward additional steps they may take on their journey to academic and personal success.

Watch an animated tour of the student experience at EdReady.org

By joining The NROC Project (NROC), your institution can acquire a customized EdReady site with robust reporting capabilities.
