Also allows you to control the scope display order!

Sequenced Scopes

When a scope is locked, students can gain access by:

1. Reaching target score of previous scope (optional - can be disabled)
2. Entering the unlock code
 - *important: the same code unlocks all scopes in the sequence*
3. Instructor can unlock via their login

Sequenced Scopes: Setup

Set up your goal, including Adding Scopes, then open the **Goal Options** tab

1. **Enable** Study Path Sequence
2. Indicate the scope **display order**
 - Select **checkbox** for any scopes that should be **locked** by default
3. **Unlock next study path automatically**
 - If enabled, students can unlock the next scope in the sequence automatically by hitting the *previous scope's* target score

4. Provide a **Manual Unlock Code**: can be typed into student's study path to unlock

Be sure to **Save Study Path Sequence**!

The screenshot shows the 'Edit Goal: TABE 11-12 Math' interface. At the top, there is a navigation bar with a home icon, 'DEMO: NROC Demo 2 (Reports dashboard)', 'Edit Version', 'Goals', and 'Goal Options'. Below this, the 'Edit Goal: TABE 11-12 Math' title is displayed. The interface has three tabs: 'General Information', 'Scopes', and 'Goal Options', with 'Goal Options' being the active tab. The 'Study Path Sequence' section is visible, with a sub-header 'Study Path Sequence' and a description 'Enable this feature to manage study path order and related options'. There is a checkbox labeled 'Enable' which is checked. Below this is the 'Study Path Order' section, with a description 'Drag and drop to specify order. Check the box to lock a study path'. There is a checkbox labeled 'Select all' which is unchecked. Below this are three study path items, each with a checkbox and a dropdown menu: 'TABE 11-12 Math - Easy-Medium' (unchecked), 'TABE 11-12 Math - Difficult' (checked), and 'TABE 11-12 Math - Advanced' (checked). Below the 'Study Path Order' section is the 'Settings' section, with a checkbox labeled 'Unlock next study path automatically' which is checked. Below this is the 'Manual Unlock code' section, with a text input field containing 'tabemath'. At the bottom, there is a blue button labeled 'Save Study Path Sequence'.

Unlocking Scopes as an Admin User

The screenshot shows the student profile for Abby Adams. The 'Goals' tab is selected. A warning message states: 'Use this feature carefully! You can manually assign (and un-assign) available goals to this student below. We recommend that you use this feature only in cases where you are having trouble getting the students to correctly assign themselves or you do not want students to use the key for an assigned goal.' Below this is the 'Assigned Goals' section, which contains a table with the following data:

Name	Access Type	Goal Key	Actions
Transition Math - DEMO	Private	NC.TM.DEMO	Remove View Study Paths

At the bottom of the page, there is a pagination bar showing 'Page 1 of 1', '10 results', and 'Page: 1'.

1. **Edit EdReady Version** (from reports dashboard)
2. Open the **Students** tab
3. **Edit** the students
4. Open the **student's Goals** tab
5. Click on **View Study Paths** link for the goal the student is working in (will be in the top table, *Assigned Goals*)
6. Here you can **Unlock/ Lock** study paths for this student

Study Path Options

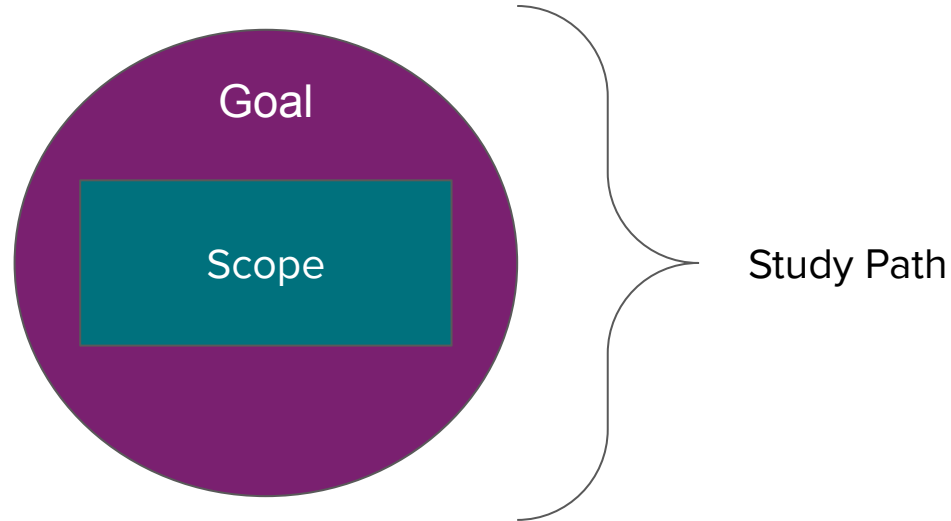

*Access and

General Information

Scopes

Goal Options

Which scope(s) should be associated with this goal? Each scope becomes a Study Path for students. Add the desired scopes to the "Selected Scopes" list. Be sure to activate each scope (only active scopes will be displayed to students). If you don't see the desired scope here, return to the main Scopes tab (from your administrative dashboard) where you can create the desired scope so that it is available for this goal.

Selected scopes

(Please activate the scopes you want your students to have access to. Students will only be able to access active scopes (study paths).)

Note: If students have completed work in a scope (study path), you will no longer be able to remove it from this goal; however, you can hide the scope from future student use by deactivating it using the checkbox.

Study Path Options: Test Settings

Study Path Options provide additional customization for how the study path functions for students.

Configure Study Path

Goal: TABE 11-12 Math - Scope: TABE 11-12 Math - Easy-Medium

Test Settings

Messaging

- ☒ Active
- ☐ Disable expedited testing

When this option is selected, EdReady will NOT present students with any questions that cover multiple learning objectives, so tests will likely take more time to complete.
- ☒ Enable unit tests
 - ☐ Only ask complex questions
- ☒ Allow students to hold questions until the end of the diagnostic?
- ☐ Skip initial diagnostic
- ☐ Randomize questions for diagnostic tests
- ☐ Only retest unmastered objectives
- ☐ Use reserved diagnostic question pool

Update

Study Path Options: Test Settings

For most settings you will use default values, but there are some settings you may want to enable:

- **Enable Unit Tests** - Allow or remove student access to unit level tests in their study path
- **Allow students to hold questions until the end of the diagnostic**- When enabled, students can come back to questions they hold, allowing a second chance to respond before completing the diagnostic
- **Skip Initial Diagnostic** - Allow students to work through all topics and learning objectives in their Study Path. Students will begin with an EdReady score of 0.

Enable Unit Tests

Unit Tests are available by default. Enable Unit Tests must be checked in order for students to test at the Topic Level and have a Unit Test available.

The screenshot displays the 'College Math Readiness Study Path' interface. At the top, a progress bar shows the current position at 32 out of 90 topics. Below the progress bar, the 'Whole Numbers' unit is highlighted, with a recommended study time of 5.5 hours and a 'NOT READY' status. A yellow 'UNIT TEST' button is visible next to the unit title. Below the unit title, a section titled 'Topics you need to study in this unit' lists three topics: 'Place Value and Names for Whole Numbers', 'Rounding Whole Numbers', and 'Comparing Whole Numbers'. Each topic has a 'NOT READY' status and a 'LEARN' button. To the right of each 'LEARN' button is a 'TEST' button, which is enabled (indicated by a pencil icon) for each topic. On the far right, a sidebar indicates that the user has mastered 1 of 12 topics in this unit, specifically 'Order of Operations'.

Test Intro Messages

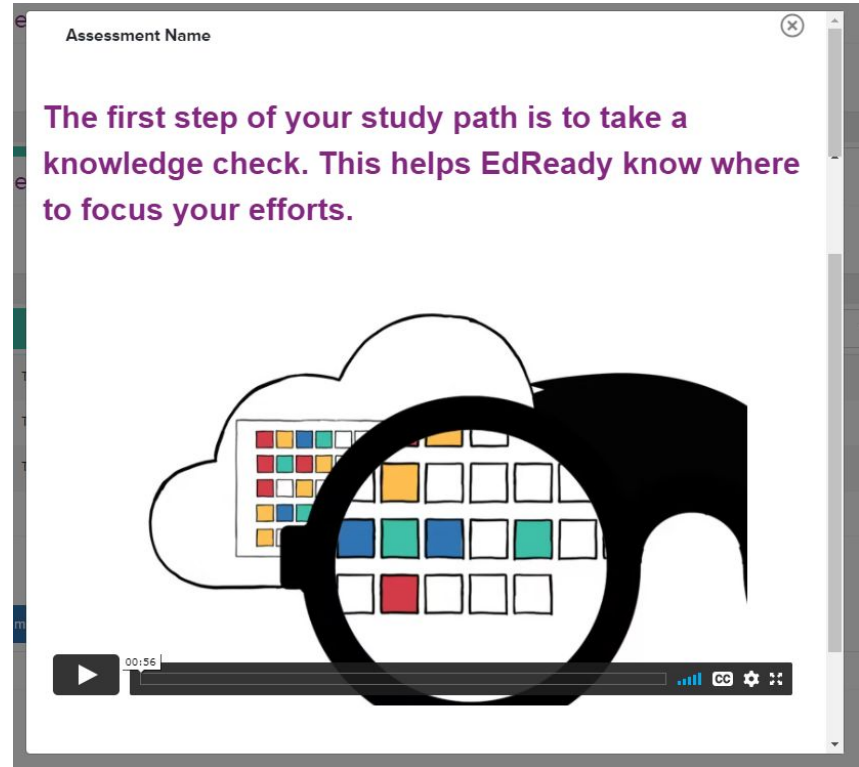

Can be used to provide specific guidance for the diagnostic and unit/ topic tests

- Calculators allowed?
- Can embed a video!

Our diagnostic video:

<https://player.vimeo.com/video/371743762>

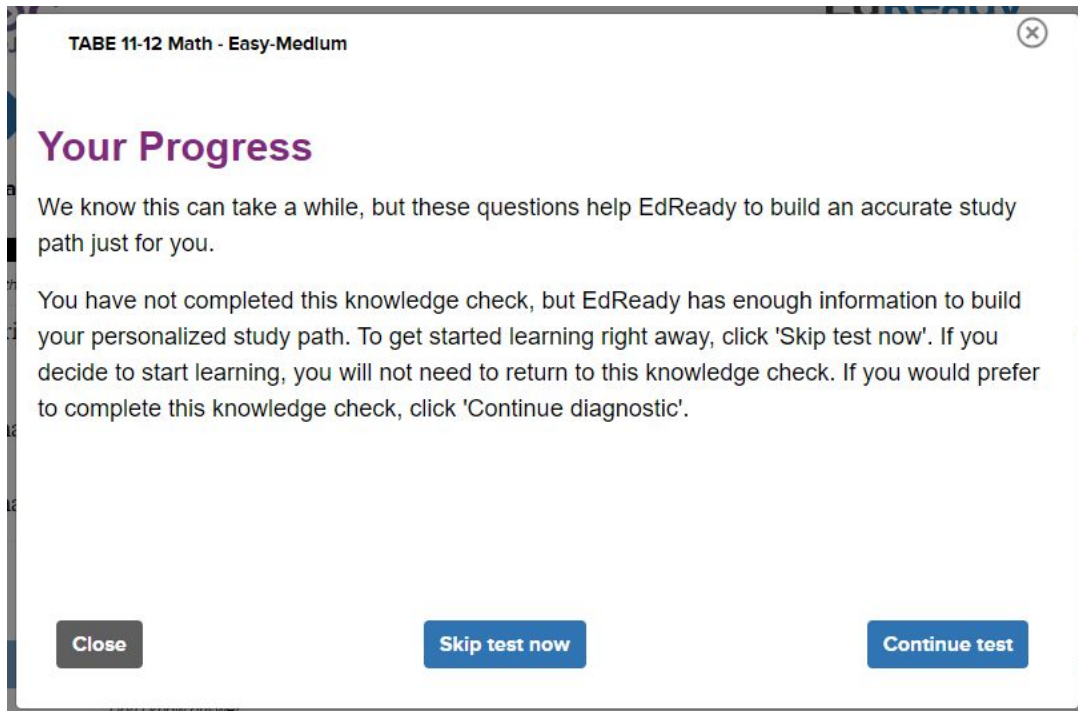

Study Path Options: Messaging

In-Diagnostic Messages

Can be used to provide encouragement and progress details to students while completing the initial diagnostic

- Multiple messages can be added: will display at selected percentage completion.
- Can display different messages to students based on their performance.
 - Students that are not performing well can be given the option to skip the remainder of the test
 - Any skipped Learning Objectives get a score of 0 (not mastered)

Study Path Options: Messaging

Post-Diagnostic Messages

Displayed immediately upon completion of the test activity. Can display different messages to students based on their performance.

- Diagnostic: can unlock next study path if score threshold is met
- Unit & Topic Tests: can display Learning Objective mastery

You have tried all of the problems on this topic-level test. However, not all of your answers are correct. You have NOT mastered the required material.

You need to click on the *Learn* button for this topic to improve your mastery of this material.

When you feel you are ready, you will be able to test yourself again.

You have shown mastery of the following concepts:

- Find the place value of a digit in a whole number.

The concepts you need to revisit are:

- Write a whole number in words and in standard form.
- Write a whole number in expanded form.

[Back to current study path](#)

Study Path Options: Messaging

Post-Diagnostic Messages: Topic Test Attempt Messages

- Can display after x# of Topic Tests for any Topic
- Will display only once (when test threshold is met for that topic), but can have messages for different numbers of tests

Steps to enable:

1. **Edit** the Post-diagnostic / End Of Topic message
2. Click the **Attempt Messaging** button
3. Can Add new messages or Edit/Delete existing messages

Please note!

You have tested yourself several times on this topic, but still have not mastered the material. Be sure to click the **Learn** button to review the resources for this topic. If you *have* been studying and are still having trouble, reach out to your instructor for guidance. Your instructor can also see that you've tested several times.

☒ Unit 1: Whole Numbers

☒ Lesson: Introduction to Whole Numbers

☐ Topic: Place Value and Names for Whole Numbers

- ☐ Learning Objective: Find the place value of a digit in a whole number.
- ☐ Learning Objective: Write a whole number in words and in standard form.
- ☐ Learning Objective: Write a whole number in expanded form.

☐ Topic: Rounding Whole Numbers

- ☐ Learning Objective: Learn the rules for rounding.
- ☐ Learning Objective: Round whole numbers to specific place values, including tens, hundreds, and thousands.

☒ Topic: Comparing Whole Numbers

- ☒ Learning Objective: Use $>$ or $<$ to compare whole numbers.

☒ Lesson: Adding and Subtracting Whole Numbers

☒ Topic: Adding Whole Numbers and Applications

- ☒ Learning Objective: Add whole numbers without regrouping.
- ☒ Learning Objective: Add whole numbers with regrouping.
- ☒ Learning Objective: Find the perimeter of a polygon.
- ☒ Learning Objective: Solve application problems using addition.

☒ Topic: Subtracting Whole Numbers and Applications

- ☒ Learning Objective: Subtract whole numbers without regrouping.
- ☒ Learning Objective: Subtract whole numbers with regrouping.
- ☒ Learning Objective: Solve application problems using subtraction.

☒ Topic: Estimation

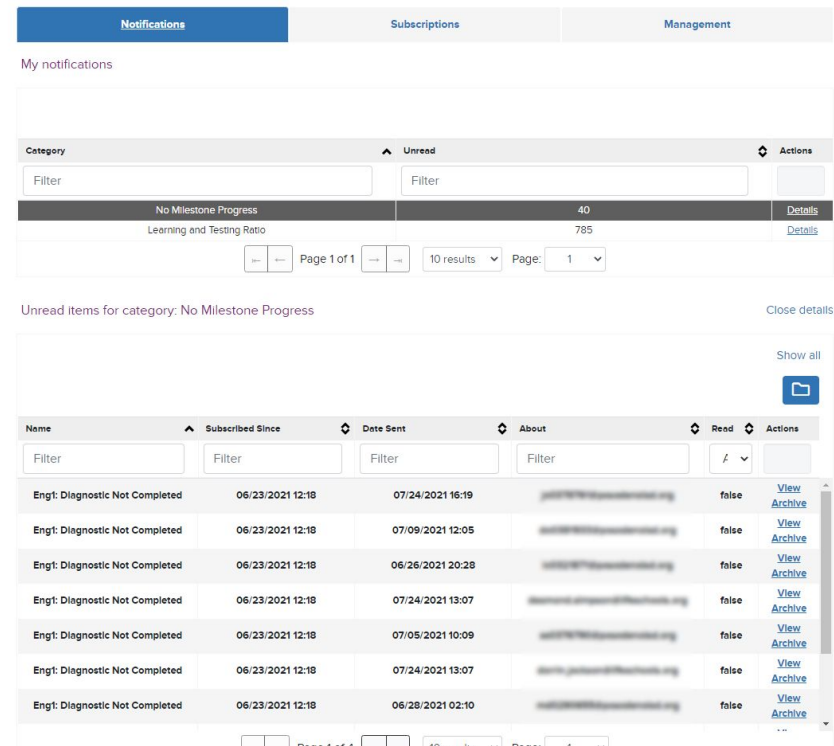

Students may see Learn resources for excluded LOs, but will not be Tested on them

Coming this Fall: EdReady Notifications

Ability to alert instructor/admin to student behavior

Some available alerts:

- Student testing but not studying
- Student has completed a milestone activity (ex: completed the diagnostic)
- Student has not reached a milestone (ex: diagnostic still incomplete)

The screenshot displays the EdReady Notifications interface. At the top, there are three tabs: "Notifications" (selected), "Subscriptions", and "Management". Below the tabs, the text "My notifications" is visible. The main content area shows a table of notifications. The table has a header row with "Category", "Unread", and "Actions". Below the header, there are two filter boxes, each labeled "Filter". The table body shows a summary row for the category "No Milestone Progress" with a count of 40 unread items and a "Details" link. Below this, there is a pagination bar showing "Page 1 of 1", "10 results", and "Page: 1".

Unread Items for category: No Milestone Progress
